## TWENTY-NINE LIVES ARE LOST

Partial Destruction of Montreal Herald Building Involves Many Employees — Nearly All Bodies Still in Ruins

**DISASTER CAUSED BY FALL OF TANK**

Heavy Machinery Crashes Through Floors and Fire Is Started—Many People Rescued By Firemen

MONTREAL, June 13.—Between twenty and thirty people are believed to have lost their lives this morning when at 10.30 the supports of the sprinkler system of the tank on the roof of the Herald building gave away and the great mass of metal and water, weighing thirty-five tons, went crashing downward to the basement. In its fall it took with it men, women and machinery, and then when all lay in a jumbled mass at the bottom fire broke out and added its horrors.

No one knows how many lie dead in the pile of debris that fills the basement. All afternoon firemen were engaged in demolishing the tottering walls that had to come down before the work of recovering the bodies could be safely attempted, and it was not until after six o'clock that the first remains, charred and mangled beyond recognition, were brought out. All of those who escaped agree that the first warnings of impending disaster passed almost unnoticed. There was a slight creaking then a little more, somewhat more pronounced.

Then those who looked to the ceiling found that the plaster was falling. Some started for the stairway, but before they could reach them they heard a great crash some of them felt the floor sinking beneath their feet and some survivors tell of falling one or two floors before the awful crash died away and they found themselves able to crawl in the dense dust to a place of safety.

The majority sought safety by rushing to the front of the building, facing on Victoria Square. Fortunately all the floors held for about thirty feet back from the front wall, and to this is due the fact that the death list does not run up into the hundreds for there were nearly 300 people in the building at the time. People passing the building heard the crash, and

## ASSESSMENT IS GENERALLY FAIR

Mr. John Dean, Appointed by City to Inspect Roll Compiled by City Assessor, Approves Figures

Mr. John Dean, who was appointed by the city council to inspect the assessment roll, as compiled by the city assessor, and report to the council if, in his opinion, any changes should be made either in increasing or decreasing the assessable values as figured by the assessor has made his report. Mr. Dean states that generally speaking the work of the city assessor has been carefully done and appears to be equitable. Mr. Dean's report is as follows:

Gentlemen: I have complied with your request under date of the 7th inst., "to make an inspection of the assessment roll, and submit findings on or before the 10th inst."

I beg to report as follows:

- 1.—Broadly, I consider the assessment as a whole well up to the statutory value.
- 2.—The relative values of adjoining properties in the aggregate appear equitable.
- 3.—There are some disparities, in my opinion, which can only be satisfactorily adjusted by the decision of a majority of a committee appointed for that purpose.

## NEWS SUMMARY

- Page
- 1.—Twenty nine lives are lost. Conferences will be held. Aviator makes new record.
  - 2.—Mayor puts ban on race meeting.
  - 3.—Strathcona trust and B. C. schools.
  - 4.—Editorial.

4.—There is a section of the city where I consider the assessment low, due to a recent rapid rise in value, which rise is in the public esteem, whether well grounded or not is problematical. The fact that the assessor has not kept step with it, is due to prudence, and in my opinion justifiable, for the reason that it is better to allow a year to elapse before recognizing a spasmodic increase, during which time the justification for the rise, or the reverse, can be ascertained, rather than to immediately follow with a correspondingly increased assessment, and the succeeding year be called upon by the Court of Revision to reduce it.

5.—At first blush the value set upon acreage would appear to be low in comparison with the value set upon adjacent city lots, but when it is considered from the point of view of a subdivision and due allowance made for streets, cost of platting and local improvement charges, the values placed thereon are found to be fairly equitable; the same may be said of other property. A careful study of the surrounding facts, in the great majority of cases, vindicates the assessment. The whole question is very intricate, and in my opinion, of sufficient importance to warrant the appointment of an equalization committee at least every two or three years.

6.—Generally, to attempt to do more than summarize in the time allotted for the inspection would be futile. Granted that the values set by the assessor are within the prescribed statutory limit, the next important consideration is: "Are the values on adjoining lands relatively and proportionately equitable?" I have no hesitation in saying I believe them to be as nearly so as the judgment of a single adjuster, animated by a sincere desire to be perfectly fair, can make them.

## CONSTRUCTION OF ISLAND ROAD

Mr. William Mackenzie Makes an Important Announcement—Canadian Northern Projects in British Columbia

Construction work on the Victoria and Barkley Sound Railroad will commence within three weeks time and twenty miles of the Island road will be constructed within the next year. Mr. William Mackenzie, president of the Canadian Northern Railway Company, is responsible for the foregoing statement. The railroad magnate, who within the past few weeks has returned from London, where he was successful in securing \$40,000,000 for the project which he, associated with Mr. D. D. Mann have in hand, arrived in the city yesterday on a brief visit which terminates this evening.

"We are daily," said Mr. Mackenzie to a Colonist representative, yesterday, "expecting the reports from our survey parties who are now engaged on the proposed Island route, and immediately they are received we will call for tenders. The reports should be in during the next few days, when we will immediately call for tenders and I anticipate that early in June active construction work will have commenced. Until the reports are received I cannot even forecast what the actual route will be."

**Mainland Road**

Talking of the mainland British Columbia section of the Canadian Northern Railway, Mr. Mackenzie stated that the contract for the construction of the 61 miles from the south side of New Westminster Bridge to Chilliwack would probably be awarded early next week and construction would commence immediately. The tenders for this section had to be in by tomorrow and there would be no delay in the

## AUTO OWNERS AND DRIVERS ORGANIZE

Club for Promotion Sport, Boost for Good Roads, and Fight too Stringent Enforcement of Speed Laws

A Victoria Automobile Owners and Chauffeurs' Association has been formed, its object being the promotion of the sport by means of boosting for better roads, for reasonable by-laws concerning the speed limit, and for the dissemination of information regarding the many beautiful motor runs to be secured on the south end of the Island.

Although only mooted for a few days the organization already has substantial backing. Its membership includes the proprietors of the majority of the garages, a large number of the private owners of cars, and practically every man who drives a machine.

One of the first matters that the club will be identified with is the provisions of the by-law under which, during the past several days, a number of motorists have been fined \$20 for driving beyond the common danger limit. It is the opinion that in instances the sentences have been unjust, particularly that inflicted on W. F. Glover yesterday. The club, probably, will support the latter in his appeal.

A meeting of the new organization has been called for Friday evening. Further particulars of this gathering will be published later.

## CONFERENCES WILL BE HELD

Premier Asquith and Leader Balfour Arrange to Talk Over Constitutional Question Concerning the Lords

## DISCUSSION ON MR. ROOSEVELT

Sir Edward Grey and Mr. Balfour Speak Favorably of Former President's Address on Egyptian Affairs

LONDON, June 13.—In the commons this afternoon Premier Asquith announced that a bill will be introduced for a modification of the King's declaration.

The conferences between the two predominant parties over the constitutional clash between the House of Lords and the House of Commons have now entered upon an official stage. Heretofore the ministers have avoided committing themselves in the matter, but the premier announced in the House of Commons today that communications on the subject had been engaged in by A. J. Balfour, former premier and now leader of the opposition, and himself—"communications which," the premier added, "I hope may lead to an early meeting between us."

Theodore Roosevelt's speech led to a lengthy discussion of Egyptian affairs in the House of Commons tonight the insurgents demanding to know what course the ministers proposed to pursue and some of the Liberal members denouncing what they termed Mr. Roosevelt's interference.

Arthur J. Balfour expressed warm appreciation of Mr. Roosevelt's sympathy and kindly treatment of the subject. There was nothing in the speech to which the most sensitive Britisher could take exception. The situation in Egypt, he declared, called for prompt action, and he hoped that the government would take haste to give support to the British representatives there, without which they will be helpless.

Sir Edward Grey, the foreign secretary, replying to the criticism in behalf of the government, announced that Mr. Roosevelt's speech had been communicated to him before it was delivered. He had seldom listened to a speech with greater pleasure. Its friendly intention, Continued on Page Three.

## FREE GOLD STRIKE AT PORTLAND CANAL

Report of Sensational Discovery in District Causes Stampede from Stewart—Much Excitement Aroused

VANCOUVER, June 13.—A report of a sensational strike in the rich Portland Canal district was received here tonight. The report states that a big free milling gold strike has just been made, covering an area twenty miles outside of Stewart. The news was brought into Stewart by C. M. Delgrove and Lewis Anderson. It caused wild scenes of excitement, and within an hour Stewart was almost depopulated.

## Will Sail for Arctic

BOSTON, June 13.—The sealing steamer Boethic, which will take Harry Whitney, of New Haven, to the Arctic this summer, arrived Saturday from Sydney, C.B., to take on her supplies for the north. Mr. Whitney, together with Paul J. Rainey, of Philadelphia, and H. C. Inman, of New York, came up on the Boethic and left for New York late Saturday afternoon. Mr. Whitney said that he expected to return in a few days, with the expectation of sailing for Etah on June 20.

## Friar Lands Case

WASHINGTON, June 13.—As a result of information sent to the house last Saturday by the War Department, disclosing the alleged fact that Frank W. Carpenter, executive secretary of the Philippine government, and E. L. Worcester had bought and leased "Friar Lands" in the Philippines, Representative Martin, (Dem.), Iowa, today introduced a resolution to demand an investigation and charging malfeasance in office.

## DISASTER IN GERMANY

COLOGNE, June 13.—Great loss of life has occurred in the Rhine valley of the Eifel region as the result of a cloudburst which swept over the district on Sunday night. Late estimates place the total number of dead at 159.

## Caught in Machinery

VANCOUVER, June 13.—Death in sudden form overtook H. Cassford, a resident of Grandview, this afternoon. While engaged at work at the Vancouver Engineering Works at 1 o'clock, he was caught in some belting and smothered up among the machinery, being instantly killed.

## British Manufacturers Suffer

LONDON, June 13.—Referring to a long list of Canadian commercial arrangements which sprang from the Franco-Canadian treaty, the Standard says that from this viewpoint the effect unquestionably will be serious to the British manufacturers, who can only regard the outlook as sombre and unpromising.

## Hudson Bay Railway

OTTAWA, June 13.—The government has decided to go ahead with the construction of the Hudson Bay Railway. At the recent session an appropriation for construction purposes went through, and the plans and specifications have been in preparation for the section of the line which surveys were completed. Tenders are to be called for at once.

## Honored by Roosevelt Club

ST. PAUL, June 13.—Following an informal reception to Gifford Pinchot and James R. Garfield, this evening about 500 members and friends of the St. Paul Roosevelt Club filled the large banquetting room of the Ryan Hotel, thus fulfilling a long deferred tribute to Mr. Pinchot and Mr. Garfield in recognition of the work in assisting former President Roosevelt in his efforts for the conservation of the public domain. Mr. Garfield talked on the "Ultimate Rules of Conservation," and Mr. Pinchot spoke on "Our National Resources and How to Conserve Them."

## C.P.R. DIVISION CHANGES NAME

General Manager Bury Speaks of Recent Re-Organization of Western Lines—Now British Columbia Division

VANCOUVER, June 13.—G. J. Bury, general manager of western lines of the C.P.R., reached Vancouver on Saturday night, on his private car Champlain, on a tour of inspection of the Pacific Division of the railway. He will remain on the Coast for several days, and will return to Winnipeg via the Crow's Nest Pass branch, he having come west over the main line.

In speaking of the reorganization of the divisions of the C. P. R. west of the Great Lakes, involving the creation of another division on the prairies, Mr. Bury stated today that there would be no change in the present boundaries of the Pacific Division. The only change would be in its name; after July 1st it will be known as the British Columbia Division.

On his eastward trip Mr. Bury will visit the Okanagan Valley en route to the Kootenays. It is possible that he may drive across the country from the Okanagan to Midway, this trip depending on the amount of time he may have at his disposal.

## At London Horse Show

LONDON, June 13.—Judge Moore, of New York, continued his winnings at the International Horse show today. His horse Flourish captured first, and his Whitewall Ariel third prize in the class for single horses over 14 and not exceeding 15 hands, shown in a two-wheel carriage. Judge Moore also secured second and third honors in the judging of pairs of harness horses over 15 and not exceeding 15.1 hands.

## SMOKER IN HONOR OF MR. BARNARD, M.P.

To Be Addressed by the Premier, Other Ministers and George Cowan, M.P. of Vancouver

A smoker in honor of the return from Ottawa of Mr. G. H. Barnard, M.P., will be held at the A. O. U. W. hall tonight. The speakers will include Hon. Richard McBride, Mr. George Cowan, M. P. of Vancouver, Hon. W. J. Bowser, attorney general, Hon. Dr. Young, provincial secretary, and Hon. Price Ellison, minister of lands. There will be a fine programme of music rendered and the smoker promises to be a most enjoyable affair.

The chair will be promptly taken at 8.15 o'clock by the president of the Conservative Association, Mr. Leonard Tait.

## Ore Shipments

NELSON, B. C., June 13.—Ore shipments for the past week and for the year to date are as follows: Boundary mines, week 25,626 tons, year to date 798,183 tons; Rossland mines, week 3,722, year to date 260,063; South Kootenay mines, week 6,172, year to date 158,776. Total shipments, week 35,520, year to date 1,073,028 tons. Smelter receipts for the week aggregated 30,285, for the year to date 941,055 tons.

## AVIATOR MAKES NEW RECORDS

Charles K. Hamilton Flies from New York to Philadelphia and Return in Remarkably Short Time

## MEETS MISHAP ON RETURN TRIP

Forced to Descend by Balking Engine and Has Propeller Broken—His Speed Over Fifty Miles an Hour

NEW YORK, June 13.—Chas. K. Hamilton arose from Governor's Island in an aeroplane this morning and sped without a break 88 miles to Philadelphia in a remarkable cross-country flight under the auspices of the New York Times and the Philadelphia Public Ledger. He made the trip in one hour and fifty-eight minutes, leaving Governor's Island at 7:35 and landing at Philadelphia at 9:25.

Alighting at the aviation field, he delivered letters from Governor Hughes and Mayor Gaynor to Governor Stuart and Mayor Reyburn, accepted messages of congratulation from them in return, and started for New York again with only a brief intermission for food, fuel and oil. He had flown approximately seventy miles of his return journey when a sluggish motor drove him to descend in a swamp near South Amboy, N. J., at 12:35 p. m. The propeller was broken there in descending, and after repairs had been made Hamilton resumed his flight at 6:20 and landed at Governor's Island at 6:30. Thus, the return trip was made in one hour and 35 minutes, at an estimated average speed of 54.96 miles an hour, which breaks the record made in the Curtiss flight from Albany to New York.

That Hamilton did not make the return trip as easily as his approaching trip was due only to an omission caused by haste. In his hurry to get away he neglected to clean his spark plugs. They fouled, and the engine balked, and he had to come down on the banks of the Raritan river, two miles above South Amboy. He made the record for speed, but Hamilton today broke all American records for cross-country distances, and duration, and using his own figures for the return journey, his average speed over the course establishes a new figure.

The accident to the propeller in the New Jersey swamp was the second mishap of the kind during the day.

Continued on Page Three.

## DELEGATION TO MEET MINISTER

Board of Trade Wants Prosecution Under the Companies Act Withheld—Spawning Grounds at Buttes Lake

Two matters of considerable importance, both of which were discussed at length at the recent monthly meeting will occupy the attention of the board of trade during the current week. The first is the Companies' Act, and in this the local board will join with the Vancouver board of trade in an effort to induce the government to withhold prosecution under the act which comes into force on the 1st prox. According to present arrangements a delegation will wait upon Attorney General Bowser in this connection. It is understood that the Vancouver board is also sending over a delegation and if this is definitely learned the organizations representing the commercial interests of both cities will wait on the minister jointly.

The question of making representations to the government in the matter of the Buttes Lake reserve is being the attention of the agricultural committee of the board. The question of whether the establishment of fish ladders at the falls on Campbell river, so as to enable the salmon to make the ascent to Buttes Lake and form spawning grounds there is a matter over which the Dominion or provincial governments holds jurisdiction will be ascertained. The suggestion that such fish ladders should be built emanated from Mr. A. W. McCurdy at a recent meeting of the board. It is further proposed to bring the government's attention to the necessity for trails in the area which it is proposed to convert into a provincial park. Representations in connection with these proposals will be made at an early date.

At a council meeting to be held during the present week the necessity of action with a view to having Victoria named as the meeting place of the American Librarians' congress in 1911 will be discussed. The meeting to decide on the convention point takes place in Mackinaw at the end of the present month.

## Severe Blaze in Cleveland

CLEVELAND, Ohio, June 13.—The Kennard Block, west Third and Summit streets was completely destroyed by fire Saturday night involving a loss of between \$150,000 and \$175,000. The building, a six story edifice, was occupied by a number of machine shops and a plating mill.

## Black Cat Cigarettes

Are You Convinced?

Read These Facts:

BLACK CAT Cigarette tobacco is a rare blend of pure Virginia leaf—perfect as a result of our years of practical experience.

This superior tobacco is manufactured in England under climatic influences most favorable for tobacco curing.

There is no sweetening matter or other foreign substances injected into BLACK CAT CIGARETTES. They contain nothing but pure tobacco.

BLACK CAT tobacco is perfect, and the method of manufacture is the cleanest possible, by use of the most up-to-date machinery.

Try This

Light any Virginia cigarette at any price, and then light a BLACK CAT. Smoke from each alternately, exhaling the smoke through the nostrils. You will "feel" that the BLACK CAT excels in soothing purity.

10 for 10 cents—mild or medium

## MAYOR PUTS BAN ON RACE MEETING

Despite Action of Council His Worship Declares There Will Be No Races—Country Club Makes Preparations

There will be no horse races here next week on the track of the B. C. Agricultural association if Mayor Morley can prevent it. His worship stated so plainly last night to the city council though he did not say just what steps he will take to put the ban on the ponies. The Country club has been given the privilege by the association of holding the meet and the members of the city council, or at least a majority of them, are in favor of the club being allowed to hold the meet but Mayor Morley declares that as chief executive of the city he will carry out the provisions of a bylaw recently passed which, he claims, gives the city the right to regulate its premises at the fair grounds and say just what shall and what shall not be permitted there in the way of sports, races, etc.

The matter came before the council by way of a report of the legislative committee which set forth that the committee had, through the president of the B. C. Agricultural association, been made aware of an interim injunction granted by Mr. Justice Gregory, against the association at the instance of the Country club, aimed at preventing the repudiation by the association of the Country club's claim to be tenants under an alleged lease of the race track, it being alleged in the proceedings that the Country club intend to hold a race meeting. The city council was not a party to these proceedings and the committee considers that it is for the council to ascertain by a legal decision whether a race meet can be held on its property contrary to the city's express determination not to permit such a determination expressed in resolution of the council some time ago. The committee consequently recommended that Mr. Fred Peters, K. C., be retained to advise on and take such proceedings as may be deemed desirable to assert the city's right to the control of its property at the fair grounds and to obtain a decision whether, in opposition to the council's express wish, race meetings can be held by the Country club and whether with, or without the consent of the council and subject to the terms it may see fit to impose.

The committee's report also stated that a resolution to the above effect was passed by the committee after an amendment as follows was put and declared lost: "That no further expense be incurred in respect to the tenancy granted by the B. C. Agricultural association to the Country club."

### Wants Control.

Alderman Langley, in moving the adoption of the report, stated that the question of racing or no racing was not involved. The real question was whether the Country club could hold a race meet on city property irrespective of the wishes of the city. He referred to the negotiations entered into last year in March between the Country club and the city wherein the club asked permission to hold a meet in 1909 at a rental of \$60 per day and the right to hold a meet in each of the succeeding four years at a rental to be subsequently agreed upon, the club to make due application to the city for such privilege. It holds a lease from the B. C. Agricultural association but as the latter body is a tenant at will it had no right to grant a lease for a term of years to any person or body. This lease has not been seen by any of the council. Only recently the council by unanimous resolution, determined to refuse to sanction any race meet by whomsoever held, until such time as a proper application for permission to hold such meet be made to the council. Notice of such action by the council was sent to the Country club which was therefore notified as was arranged last year of the city's refusal to concede the club the right to race this year. The Country club has no right on the city's grounds and Alderman Langley was certain that had Judge Gregory been seized of the full facts he would not have granted the injunction asked for by the club. If the club wished to hold a race meet it should have come to the city and asked for permission as it last year agreed to do.

Alderman Bannerman pointed out that the club's lease from the B. C. Agricultural association was a lease "virtually from the city as the then mayor and two aldermen had approved of the lease. As the city is responsible for the action of the association, a responsibility which the city has shown it appreciates by the fact that it has paid the association's debts. It was, Alderman Bannerman believed, foolish to say that the city has never been asked for permission to hold a race meet. The city possesses an acting city solicitor, a city solicitor, a city barrister, and doubtless would have to pay for the services of Mr. H. Dallas Helmcken, K. C., who appeared for the B. C. Agricultural association recently in court when the Country club secured its injunction, and now the legislative committee wanted to secure Mr. Fred Peters, K. C. Five legal advisors was altogether too many. The would just be another law suit and the city would lose as it seems always to lose.

### Affraid of Law Suit.

"I'm not in favor of a race meet," declared Alderman Bannerman, "but would rather have one than a lawsuit. I can look after my money at the former but I can't in a lawsuit."

Alderman Bishop urged that the Country club be given permission to hold the meet and Alderman Ross expressed his fear of more legal entanglements.

Mayor Morley pointed to the fact that the council recently went on record that there shall be no racing at the fair grounds except with the city's approval. To permit the Country club to go ahead without first having received its application for such permission was simply going back on what the council decided upon. It would be lowering the dignity of the city, this backing down to a weak threat from the horsemen who want to conduct a gambling game.

More cross-firing took place and finally the vote on the committee's report was taken. Aldermen Humber, Ross, Mable, Bishop and Bannerman voting

against the adoption of the report and the mayor and Aldermen Langley, McKeown and Fullerton in favor of it.

The mayor declared the motion lost and thereupon declared that in spite of the council's decision to practically permit the meet to be held he would do his utmost to block it. In the face of the bylaw recently passed regulating betting the motion just passed by the council was out of order. That bylaw gave him the right to step in and stop racing and he was going to do it.

### Trouble for Mayor.

Two letters were read, one from the B. C. Agricultural association, stating that at a meeting of the association it was resolved that the council be asked to permit the Country club to hold a six-day meet on the grounds of the association under the Miller Bill. The other communication, from the Country club, speaks for itself. It was as follows:

The Mayor and Aldermen of the Corporation of the City of Victoria:

Gentlemen—We beg to formally advise you that we propose holding a six-day horse-racing meeting beginning next Saturday and continuing to and including the following Saturday, with no racing on Sunday and Monday.

Our object in thus notifying you is to avoid any possibility of a breach of the peace, as we have been informed that Mayor Morley has threatened to try to stop the race meet at the last moment, by force if necessary. In this connection we may add that the Oak Bay municipality will have a force of constables on the ground sufficient to preserve order.

If it should be the opinion of your honorable body that the holding of this race meeting will infringe upon any of the legal rights of the city of Victoria, this letter should give an opportunity to have the matter peaceably settled in the courts.

VICTORIA COUNTRY CLUB, LTD.

## WOMEN'S COUNCIL HOLDS SESSION

Various Details of Routine Business Are Considered—Asks That Reports Be Sent in Early.

The regular meeting of the executive of the Women's Council was held in the City Hall yesterday afternoon, the president, Mrs. C. E. Cooper, in the chair.

There were present: Mrs. Jenkins, Mrs. Spofford, Mrs. Wm. Grant, Mrs. Marvin, Mrs. Graves, Mrs. Macfarlane, Mrs. Savory, Mrs. Hay, Miss Roberts, Mrs. J. G. Brown, Mrs. Gavin Burns, Mrs. Pickard and Miss Lawson.

The treasurer's report showed a balance of \$18.68.

Mrs. Graves, for the committee on Supervised Play, asked the president whether there was really any work to be done at present in Victoria. Mrs. Jenkins and Mrs. Wm. Grant spoke of what was being done in some of the cities of the United States, and several ladies thought that at present there was little need of public playgrounds for the children of the city. Mrs. Graves was advised to consult with Mrs. Day, the members of the Mothers' Club, and other ladies or gentlemen who were in a position to know whether children's games should be supervised.

Mrs. Gordon Grant, on the request of the president, gave a brief description of the work done in the new Detention Home and hoped that all members of the Women's Council who could do so would be present on Tuesday evening to hear what were the plans of the Children's Aid Society, the City Council and the School Trustees concerning a Children's Court, a Delinquent Officer and a Truant Officer. Mrs. Grant also asked the ladies to attend the lecture of Mrs. Dow on Friday night.

Mrs. Spofford asked that all the resolutions of affiliated societies to be submitted at the annual meeting be sent in not later than the first Monday in September, to insure their being placed on the agenda. Much annoyance and some mistakes have been caused in former years by delay in sending in these resolutions.

Amendments to the constitution were then considered. The clause permitting the admission into the Council of representatives of a society not in affiliation was cancelled.

The amendment providing for the election of officers was referred back to the sub-executive for a change in the wording.

A discussion took place on an amendment, the purport of which was to prevent individual members, patrons or life members having any vote or voice in the proceedings of the council. It was explained that the present practice of admitting such members to meetings of the executive was unconstitutional. It was decided, on motion of Mrs. J. G. Brown, seconded by Mrs. Hay, to ask the provincial conference to take this matter up, as it was one of importance to all council women.

The meeting then adjourned to the first Monday in July, when a special meeting will be called for the purpose of appointing delegates to the provincial conference, to be held at Vancouver in September.

## A PESSIMISTIC EARL

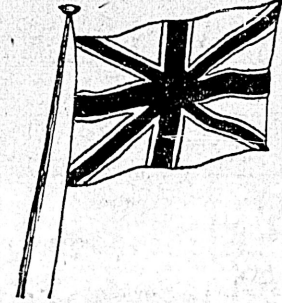

New Budget Works Invidiously Upon Men of Large Means He States.

LONDON, June 13.—The Earl of Pembroke, owner of 60,000 broad acres made a remarkable speech at Salisbury a few days ago during which he shed tears of sympathy for "the unfortunate so-called rich man who had an income of more than \$25,000 a year, because the government was taxing him to death."

His lordship was addressing the annual meeting of the Wilton Hunt Club and he said it was useless to ignore the fact that in coming years it would be increasingly difficult to get subscriptions for the sport. It had occurred to him that the people who would probably have to reduce their subscriptions in all forms would be the unfortunate so-called rich man with an income of more than \$25,000 a year, for the income tax collectors were now sending out, under the new Budget, their super-tax forms, under which, as far as he could see, enormously heavy imposts would be put upon those persons whom Mr. Lloyd George considered ought to be specially bled.

That must inevitably entail very large reductions in the subscriptions and contributions which those unfortunate people had hitherto made, and it appeared to him that the future sport of this district, and the future sustenance of many of their local institutions, would have to depend on a great deal more on those who had moderate incomes than it had in the past upon those who had large incomes.

It would, he thought, come home to

## OBITUARY NOTICES

### Brooks

At the family residence, 535 Hillside avenue, on Sunday morning, Mrs. Frederick Brooks passed to her long rest. The deceased lady, who was 34 years of age, was loved by all who knew her, being a faithful wife, devoted mother and loyal friend. Besides her heartbroken husband and five little children she leaves to mourn her loss her parents, Mr. and Mrs. M. McKinnon, of this city, six brothers and four sisters, to all of whom the sympathy of a large circle of friends is extended in their sad bereavement.

### Westcott

The funeral of the late Charles Hunter Westcott took place on Sunday afternoon from the Eagles' Inn, Government street, at 3 o'clock. Impressive services were conducted at the hall by Rev. A. E. Roberts and Bro. Thos. Gold, acting president F. O. E., assisted by Bro. Steve Court,

the chaplain of the lodge. The favorite hymn of the deceased, "Nearer My God to Thee," was sung, after which the cortege proceeded to Ross Bay cemetery, where interment took place. There was a very large attendance of friends, and many floral tributes were presented. The following were the pallbearers: W. F. Paulsen, P. W. Dempster, Geo. McCann, H. Smith, H. Lalune, J. K. Angus, all of whom are members of the F. O. E.

### Greig

The funeral of the late William Greig took place yesterday afternoon from the family residence, Ross street, at 2:30, and at St. John's Church at 3:45, where service was conducted by the Rev. A. J. Stanley. There was a large attendance of friends, many beautiful flowers being presented. The following acted as pallbearers: D. J. Scafe, A. H. Todd, Robt. Graham, W. A. Pitzer, F. L. Smith and Jas. Thompson.

### Mr. Bourassa Again

OTTAWA, June 13.—Henri Bourassa is credited with the intention of being a candidate for the Dominion House again, and is said to be looking toward L'Abbaye.

## STRATHCONA TRUST AND B.C. SCHOOLS

### Amount in Which Province Is Likely to Be Benefitted—Scope and Purpose of Trust Explained

Having especially in mind the enthusiastic endorsement by Dr. McCreight of the Nova Scotia schools of the advantageous working out of the Strathcona Trust appropriations as a means of improving the physique of the children of Canada attending the schools of the Dominion, the Government of British Columbia has followed the example in this regard set by the provinces of Nova Scotia, New Brunswick and Ontario, and accepted the conditions of the Trust as applied to this province. Prince Edward Island is also moving in the same direction, while Quebec is sending two delegates to Ottawa to discuss Trust matters with the officials of the Militia department. It seems reasonably certain that the close of the present year will see all the confederated provinces embrace the advantages of the trust establishment, by acceptance of the attached conditions. For this province a council has been formed, consisting of Mr. W. P. C. M. A., of Vancouver, Dr. E. B. Paul, of this city, and Inspector David Wilson, M. A., of the Education department, to consider, with the representative of the Militia department the various details requiring to be disposed of in the carrying out of Strathcona Trust in this Pacific province. The Strathcona donation amounts to \$300,000, and is invested in the Finance department of Canada at a special rate of four per cent, the amount earned for utilization annually being thus approximately \$12,000, divisible by the number of schools. It is thus roughly estimated that the amount annually available for British Columbia will be between \$300 and \$400. In addition to which the Militia department supplies instructors and inspectors free of charge and pay bonuses to male teachers according to the work done by them in the province of physical training. In order that the general public may have a fair and comprehensive idea of the scope and purpose of the Strathcona Trust, the following extracts are given from a letter addressed to Premier McBride by Mr. A. C. Lewis, secretary of the executive council of the Strathcona Trust, on the 9th November last:

"From inquiries that have been addressed to the executive council, some misapprehension appears to have arisen as to the aims and objects of the Strathcona Trust. It is with a view to the removal of any grounds of misunderstanding that I am directed to submit the following remarks:

### The Object

"As you are aware, Lord Strathcona's object in forming the Trust is two-fold—the improvement of the physical and intellectual capabilities of the children while at school, by means of a proper system of physical training calculated to improve the physical development, and at the same time to inculcate habits of alertness, orderliness and prompt obedience, and the fostering of a spirit of patriotism in the boys, leading them to realize that the first duty of a free citizen is to be prepared to defend his country, to which all boys should, as far as possible, be given an opportunity of acquiring a fair acquaintance while at school, with military drill and rifle shooting.

"(4) With regard to the first point, the executive council deems it necessary to require that a province, before it can participate in the benefits of the trust, should pledge itself to include in the regular curriculum of the schools under its control, instruction in physical training for all children of both sexes attending the same. This requirement appears to be clearly understood by all, and there have been, so far as the executive council is aware, no serious objections raised to the universal introduction of a well-tested system of physical training into all the public schools of Canada.

"(5) With regard, however, to the question of military training and rifle practice for the boys, a somewhat important misapprehension appears to exist in certain quarters, to the effect that the Strathcona Trust is designed to be used as a vehicle for the introduction of a system of compulsory military education into the schools of the Dominion. I am directed to state emphatically that such is in no wise Lord Strathcona's intention, or that of the executive council of the Trust.

### Spirit of Patriotism

"(6) As stated above, one of Lord Strathcona's main objects is to inculcate a spirit of patriotism into the youths of this country, together with a realization of their duty as free citizens. In its defence, and consequently their training in the rudiments of a soldier's art, is, in his opinion, desirable, in order that they may be able to give a proper expression to that spirit in time of national danger; but his lordship does not insist that this military training should be made compulsory. All he asks is that the government of a province should undertake to encourage as far as possible the formation of cadet corps and the practice of rifle shooting in the schools under its control, leaving the parents themselves to decide whether their sons should join these corps. The proper military instruction and care of these corps when formed is a matter which falls within the province of the Department of Militia. The Department of Militia, however, asks that the educational authorities will endeavor, or at least place no obstacle in the way of their teachers bestowing officers of their school cadet corps.

"(7) The position may, perhaps, best be summed up by re-stating the following general conditions which the executive council of the Trust asks the educational department of a province, in order to ensure to the schools under its control participation in the benefits of the Trust. It is confidently believed that perusal of these conditions will show that they cannot fairly be in any way construed as an attempt to introduce a system of compulsory military training into the schools of Canada.

### The Conditions

"(a) These conditions are as follows: (a) Physical training to form an integral part of the curriculum in every school or public educational establishment maintained mainly out of the public funds, at which a teacher holding a certificate other than that of the lowest grade is employed;

"(b) A certificate of ability to instruct in physical training to form part of every teacher's certificate other than those of the lowest grade, granted by the educational department of the province.

"(c) The education department to encourage the formation of cadet corps, including the practice of rifle shooting

under suitable conditions by the older boys, in all educational establishments under its control;

"(d) The system of physical training to be adopted to be that in force in the elementary public schools in Great Britain (which has recently been revised in view of the latest developments in Sweden, Switzerland and other countries, with such modifications therein as the local conditions of any province may show to be necessary.

"(e) The education department to undertake to require, within a specified period, all teachers who are already in possession of its certificates, other than those of the lowest grade, to qualify themselves to instruct in physical training (subject to the exemption of such teachers as are physically unable to qualify, or are nearly at the end of their terms of service), so that in every school there shall be at least one teacher capable of imparting the necessary instruction.

"(9) The Militia department will, on its part, aid the Education departments by affording the necessary facilities to the teachers of both sexes to qualify themselves in physical training, by providing instructors until such time as the provincial authorities are in a position to undertake this duty themselves.

### Necessary Instruction

"(10) The Militia department will also afford the teachers the necessary instruction in military drill required to enable them to become officers of cadet corps under the same advantages as are already allowed to officers of the active militia, and will grant certificates of qualification.

"(11) The Militia department will also pay the authorized grants to the teachers qualified and acting as instructors of cadet corps, and will supply to such corps such arms and equipment as are needed under the regulations applicable to each case.

"(12) Sir Frederick W. Borden confidently hopes that after consideration of the foregoing explanation, your government may see its way clear to sign an early date to declaring its acceptance of the conditions mentioned in paragraph 8 of this letter, so that both teachers and pupils in the educational establishments of the province may be competent to share in the benefits of the Trust."

## AVIATOR MAKES NEW RECORD

Continued from Page One.

but a telephone call to Governor's Island and brought him back by automobile with a set of spark plugs, and the aviator was able to finish within the twelve hours, although 24 hours were allowed in his contract.

Carrying as he did letters between the two cities, Hamilton created the first fast mail by the overland route to Philadelphia and return, and demonstrated that an aeroplane can deliver mail from one city to another with the punctuality of government service. During the whole of his first lap he never varied more than two minutes from his time card, and he came down on the handkerchief laid to mark his landing spot with the precision of a homing pigeon settling on its perch. It is an interesting coincidence that Hamilton won his honor today with the same plane that won the international speed trophy for Glenn H. Curtis at Rheims last year, and then was driven by the same propeller in which Curtis recently made his historic flight from New York. Curtis flew over a more picturesque country, but Hamilton overcame today's obstacles of geography and setbacks of luck that no other aviator has ever conquered. Curtis carried pontoons; Hamilton flew thirty miles over the salt water with no protection but three inner tubes of bicycle tyres wrapped around his waist.

## CONFERENCES WILL BE HELD

Continued from Page One.

he said, was obvious, and, taken as a whole, it was the greatest compliment to the work of one country ever paid by a citizen of another. There was nothing in the present situation in Egypt, the foreign secretary declared, to cause disquietude or justify a sudden resort to unusual methods, but if the symptoms already noted of anti-British agitation continued the government would take measures to assert its authority and protect the Egyptian ministers who followed the government's advice.

Questions were submitted in the house during the course of the day bearing on the same subject, to which the secretary for foreign affairs made a brief reply.

## CONSTRUCTION OF ISLAND ROAD

Continued from Page One.

awarding of the contract. In connection with construction work in the province, he anticipated no difficulty as far as labor was concerned. In this respect his company had been singularly fortunate in all their constructive work throughout Canada.

Referring to the Dunsmuir coal properties which he, in company with a syndicate of English capitalists, have practically acquired, Mr. Mackenzie stated that there was every intention of carrying out extensive developments, and that in all probability four new mines would be opened in short time. Until the deal was finally consummated, it was premature to make any definite announcements in this respect, but he could say that an expansion of the coal areas would take place within a very short time. He expected the properties to pass into the hands of himself and his associates during the present week.

### Local Terminals

Nothing has as yet been definitely decided with respect to the terminal of the Victoria & Barkley Sound railway, either in the Capital or in the Barkley Sound district. As incorporated in the bill which passed at the recent session of the Provincial Legislature, car shops for the Island road would be situated in the vicinity of Victoria. Until the surveys were complete nothing could be decided as to the point from which the line would leave Victoria. With the letting of the contract for the first twenty miles of construction it would be possible to arrive at a conclusion in these respects. It was time enough to consider the question of ferry connection when the lines were in operation, on both the mainland and the Island.

Mr. Mackenzie spoke enthusiastically of conditions in the province, and implied that his company contemplated holding an immense stake in the Island in the course of time. The extensive timber limits in the Cowichan district, which he has interested English capital in, were fully exploited. A sawmill will not be established on the Island, the logs being shipped for manufacturing purposes to the Fraser River mills.

Many handsome designs in stock.

A splendid stock of Extension Tables to choose from. Prices start at **\$7.95**

## SMITH & CHAMPION

1420 Douglas St.

"The Better Value Store"

Near City Hall

While making the above announcements Mr. Mackenzie stated that he was somewhat out of touch with the stage at which the Canadian Northern plans in this province had reached, having been absent in England securing money for the projects which were afoot in this province. He had not seen Mr. D. D. Mann for three months past, and at the present moment the latter was more conversant with the work which was about to be undertaken here. Mr. Mackenzie stated that his visit here was for the purpose of conferring with Premier McBride.

## U. C. T. NINE MEETS BEACON HILL TONIGHT

This evening at Beacon Hill, the United Commercial Travellers will make their first appearance as baseball players, when they line up against the Pride nine, in a regular league fixture.

Messrs. Stewart Williams & Co. will hold an important sale of household furniture today, including mahogany drawing-room suites, very handsome solid oak extension table, oak chairs, oak sideboard, some exceedingly fine Brussels and Axminster carpets, grand piano by Mason & Risch (nearly new), Ostermoor mattresses, mahogany and oak bedroom sets, good garden roller, tent, and a quantity of other goods, as can be seen in our advertising columns.

Wrong Glass Spilt Death  
LONDON, June 13.—"Wrong glass, God help wife and children," was the sad message written in a note-book of Captain Herbert Fairburn, of the Royal Horse Artillery, who had been for the past three years stationed at Middlesbrough as adjutant of the Northumbrian (North Riding) Royal Garrison Artillery.

At the inquest a verdict of death by misadventure was returned, and the jury passed a vote of sympathy with the widow and seven children.

Captain Fairburn, according to the evidence, was cleaning his uniform with cyanide of potassium, which he had in a glass. He had at the same time a glass of whiskey and water beside him. He picked up the cyanide and drank it in mistake for the whiskey. Captain Fairburn, who was 44, joined the army at 15. He had seen much active service.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects.

#### AN ECONOMIC PROBLEM

We are favored by being permitted to reproduce a letter written by Mr. J. J. Hill, of the Great Northern, to a distinguished and prominent British statesman. In so doing we have been asked not to mention the name of the gentleman to whom it was addressed. If we were able to do so, it would add to the interest of the letter. The question dealt with in the communication is one to which we have on several occasions directed the attention of Colonist readers, and this is why we have been allowed to make public the principal part of what is a private communication.

Mr. Hill has given great attention to the question of exchange as it affects the trade of America with the Orient, and has on more than one occasion directed public attention to the causes that were operating to influence the course of the development of that commerce. There was a time and it was not so very long ago, when the people of Europe did not give economic conditions in Asia a serious thought, and those in America looked upon the Orient as a field to be exploited when and how their enterprise preferred. Events in recent years have been of a character to startle us all out of our complacency. We have begun to get hold of the idea that perhaps the question to be considered is not "What shall we do with Asia?", but "What will Asia do with us?" As Mr. Hill suggests, it is much easier to point out the danger than to devise the remedy. The enactment of prohibitive tariffs against China would so disrupt all commercial and financial relations that the world would be brought face to face with the most tremendous crisis it has ever been called upon to encounter. Mr. Hill contemplates the possibility of a reduction in the standard of living and consequently of the rate of wages until the white man and the yellow man are put upon an equality except so far as efficiency is concerned. But we pointed out in a recent reference to this question that in the iron mines and smelters of China the margin of efficiency between white and yellow labor is found to be only about ten per cent. in favor of the former. We can readily suppose that with the development of manufacturing interests the standard of living and the rate of wages in China will appreciate, but that they will ever get within ten per cent. of the European or American standard and rate is so remote a contingency that for all practical purposes we may dismiss the probability of its occurrence from discussion. The most that could be hoped from such an appreciation would be to reduce the depreciation in our standards that would be necessary to put our producers on an equal footing with those of China. There remain the possibilities involved in a change in monetary standards, which stated in simple words means the restoration of silver to its former value as a money metal. Silver is the yellow man's money. He is paid for his work in silver without any regard whatever to its gold value. Consequently, when silver falls in comparison with gold, the wages of the Chinese operative becomes lower by comparison with those earned by the white operative, but he does not demand more tasks. It is all the same to him whether silver in New York or London is worth 50 cents on \$1 an ounce; but it is not all the same to the highly-paid producer in the Occident. He may smile at the Chinaman, who will work for a month for what he gets a day; but when the Chinaman comes to pay for the white man's products and finds his money worth very much less in white man's money than it used to be, he is going to do one of two things, and most likely both. He is going to stop buying the white man's products, or he is going to make them for himself. If he only does the former he is going to ruin a great and profitable trade and thereby dislocate commerce and finance; if he does the latter, he is going in a short time to produce more than he requires for his own use, and the world will be his slaughter market.

There is no use in shutting our eyes to these considerations. They are the most important economic considerations of the present day. China was content for ages to live behind her wall of isolation; but Europe first and, afterwards, America were not content that she should do so. But the men who opened China to the rest of the world did not understand the Chinese people. We are not quite sure that we nowadays understand them any better; but at least we know more about them. Without pursuing the subject further, we

reproduce Mr. Hill's letter. It is as follows:

"Your letter expresses forcibly and accurately the practical effect of the fall in exchange with the Orient; not only upon its trade with the rest of the world, but upon domestic industrial conditions in those other countries as well. I have expressed very briefly my opinion of the importance of the matter in an article on Oriental Trade, published in the January number of 'The World's Work,' a copy of which I take pleasure in sending you herewith. In addition to my own views I have quoted a letter from Mr. Moreton Frewen, who has covered the subject exhaustively in a number of articles published within the last few years. Whatever one may think of Mr. Frewen's general theory of monetary standards, his discussion of the fall in exchange and its economic consequences is quite valuable, being matter of fact and not all theory."

"It seems to me that such facts as your Lordship cites, which are now becoming familiar in the experience of every country and are affecting profoundly industrial conditions throughout the world, call, as you say, for a 'good deal of scientific thinking.' Nor will it be easy to discover and agree upon a remedy. The adjustment to each other of two civilizations differing not only in monetary standards and customs, but in wages, hours, standards of living, industrial methods and almost every physical and mental peculiarity that separates one race from another, is a slow and difficult process. It will not be accomplished without some cost to us."

"It appears certain that, as long as the workers of the Orient are content to accept silver at par for their low wage, while the merchant and manufacturer can sell their products abroad for gold and turn it into silver at current rates of exchange, not only must exports to the Orient tend to decrease rather than increase, but, as I have said in the article referred to, it will presently become a question whether the markets of the world can be saved from a competition stimulated by exchange conditions that we are powerless to control."

"Undoubtedly this subject needs as much attention as is being bestowed upon the general rise of prices, with which it is connected. It is not understood or even mentioned in the discussions of our time. But it will presently force itself unpleasantly upon the notice of other countries not only in their changing trade balances with the Orient, but in the appearance in their home markets of a competition with which they are unprepared to deal. The adoption of prohibitive tariffs against the Orient, which implies retaliation and the destruction of that trade; the reduction of standards of living and of wages in other countries until the difference between these and those of the Orient shall cover only the difference in efficiency of labor; and some form of agreement upon monetary standards and ratios that will equalize exchanges once more, are the only remedial measures that suggest themselves. The matter is becoming sufficiently urgent to call for their earnest consideration. . . .

Faithfully yours,  
JAS. J. HILL.

MR. S. D. SCOTT

British Columbia journalism is fortunate in that it is to be strengthened by the entry of Mr. S. D. Scott, of St. John, formerly editor of the Standard, who is to assume the editorship of the News-Advertiser. Mr. Scott has had a long newspaper experience. For some years he had charge of the St. John Sun, and under his management that journal was one of the most active and aggressive newspapers in the country. When the Sun was purchased by the owners of the Daily Telegraph and amalgamated with it, Mr. Scott was placed in charge of the Standard, which was started to represent Conservative interests in the eastern city. He has filled the post with great credit to himself and advantage to the public. Mr. Scott has had the benefit of an experience in the gallery at Ottawa, and is very familiar with political affairs.

He is a forceful writer, but is always fair, and his work is on a high plane. Personally he has always been very popular, and we can well believe that his departure from St. John will be much regretted by as many personal friends as political ones. We shall be glad to welcome him to this western province, to whose development he will be able to give valuable assistance by his able pen.

MR. WILLIAM MACKENZIE

The people of Victoria are always glad to see Mr. William Mackenzie. This time special interest attaches to his visit because it is largely in connection with the taking over of the Dunsmuir colliery interests, which will lead to his very close identification with the progress of Vancouver Island. Mr. Mackenzie has a standing in the financial world such as is enjoyed by few men, and the fact that he and those associated with him are about to invest many millions in a great industrial enterprise here is an event of very great importance. Hitherto the properties which he and his associates are about to acquire have been in the hands of local people, and it is with mixed feelings that we think of the change; but there can be no doubt that the operations of the new group of capitalists may be regarded as in

the nature of a new departure in the affairs of the Island. Special moment attaches to the change because the gentleman at the head of it is also President of a transcontinental railway that is about to begin construction on the Island. At present it would be premature to forecast what this combination of circumstances may imply, but it is not too soon to say that it identifies the Canadian Northern with Island development in a manner that promises very much for the future.

In speaking of Mr. Mann a few days ago, we said his career was that of a hero of modern romance. In days of old, romance consisted chiefly in the exercise of the powers of destruction. The knight went armed cap-a-pie and usually contrived to leave a red trail behind him. Our modern heroes go out with full pockets, and mark their course with lines of steel. One thing is to be noted in connection with Mr. Mackenzie's career and that of his colleague. They are not content with the arena of transportation alone, but devote their great energy and their far-seeing sagacity to the development of business, which their transportation lines can handle.

Mr. Roosevelt will take and will give the country a rest. Both surely need it.

It is to be hoped that the retirement of the French chef from the royal kitchen will not disturb the entente cordiale.

Tonight a meeting will be held in the A. O. U. W. Hall to tender a welcome to Mr. G. H. Barnard, M.P., and hear what he may have to say about the session's work at Ottawa. The meeting will also be addressed by Mr. McBride and Mr. Bowser, and the occasion will be an interesting one. The attendance will doubtless be large.

We need hardly say that the reference to self-denial collections in the Colonist of Sunday had no application to the praiseworthy efforts of the Salvation Army in that way. This is recognized as one of the legitimate means whereby the Army carries on its work, and it deserves and receives the cordial approval of the public.

The Seattle spirit is a fine thing, but when it magnifies a fire which does less than half a million dollars' worth of damage and hurts no one, into a holocaust, which destroys from thirty or fifty more or less valuable lives and anywhere from one to two millions' worth of property, enterprise seems to have got the better of discretion. But Seattle has managed to get the eyes of the world concentrated upon her for forty-eight hours, and that is worth something.

The correspondents telegraph that the people of Germany are growing apprehensive of the personal extravagance of the Kaiser. He is personally a very rich man, but it is said has spent his means with so prodigal a hand that he has materially lessened his private fortune. Now he has asked for and obtained larger grants for his personal use, and perhaps for the first time in German history there seem to be complaints that the crown is becoming too expensive a proposition.

Mr. Asquith has officially announced that he has invited Mr. Balfour to a conference of the Lords' veto. The invitation disproves the contention made by some of the British papers that the Prime Minister's proposals are "an irreducible minimum." It will be observed that Mr. Asquith has not stated that this invitation has been extended by the wish of the King, but we fancy it would not be doing His Majesty an injustice to suggest that the idea originated with him.

The destruction of the office of the Montreal Herald by fire was an exceedingly serious tragedy. Under ordinary circumstances we should feel like tendering an expression of regret to our contemporary, but the monetary loss is so insignificant in comparison with the terrible loss of life that we can only think of the latter and say how grieved the people of Canada will be to learn that so many industrious workers were off in such a dreadful way.

The news of the retirement of Lord Kitchener from the Mediterranean command comes as a surprise, and explanations will be looked for with great interest. His name had been connected with the vacant vice-royalty of India; but we are not informed if this was with any show of authority. It seems hardly likely that His Lordship would have resigned the Mediterranean command in a fit of pique because he had not been named as successor to Lord Minto, and therefore we prefer not making any comment whatever upon the telegram received.

All things come to those who wait, if they only wait long enough. The seemingly impossible is about to happen. Lo, these many years, divers and sundry of His Majesty's lieges have insisted that the rocky point that juts out like a promontory into the Esquimalt road just within the city limits, was a source of danger to them and every one else, who might have occasion to use that thoroughfare; but the rock remained. Now let it be known to all men by these presents, that city workmen are about to remove it. We may now look for a solution of the water question some time, not to speak of the Songhees Reserve.

## You'll Never Find Better Styles in REED AND FIBRE CHAIRS

Look where you may you'll never find better styles in reed chairs than we are now showing on our fourth floor. These come from a big shipment just received direct from one of the largest makers, and they represent the very latest word in this class of furniture.

It's a timely shipment—coming just at the season when such invitingly comfortable chair styles are much in demand. The pleasing styles seem to "fit in" with the charming Summer time. They are cool and comfortable—just the ideal chair for this time of year.

These chairs are superior in design, and they are also superior in workmanship and finish and materials. Made of selected reed or linen fiber. Workmanship the best and the finish specially good. These are shellaced, and this preserves as well as adds to the beauty of the chair.

Another feature of this display is the fairness of the pricings. Considering the superiority in quality and design, the prices are exceptionally interesting.

Right now is an opportune time to secure one of these chairs—opportune because the variety is best now and because this is the season when such a chair is particularly desirable. Come in and let us show you a big variety of styles in rockers or arm chairs, with prices ranging from \$4.50.

Reed Rockers at \$4.50, \$5, \$6, \$7.50, \$8, \$9, \$12.50.

Reed Arm Chairs at \$4.50, \$6.50, \$7, \$7.50 and up.

Settes, Couches, Round and Square Tables—a great choice of styles.

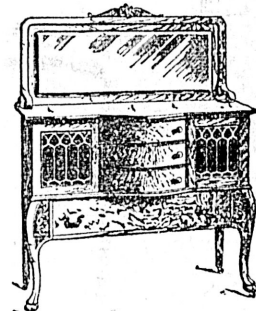

### NEW STYLES

#### In Furniture Here

Last week a carload of furniture for the dining room and parlor was received, and if you have not been a visitor to this store during the past few days, you'll find much of interest if you visit us today.

Here are a few new pieces—  
**Buffet**—Made of selected oak, finished a pretty golden. Has cupboard with 2 leaded glass doors, 1 full length linen drawer and 3 smaller drawers, 12 x 38 inch bevel plate mirror. Top measures 20 x 46 inches. Price ..\$40.00

**Sideboard**—A magnificent piece of furniture. "Swirl" front. Has 1 full length linen drawer and 3 smaller drawers, 2 cupboards. Mirror measures 24 x 48 inches. Top measures 24 x 48 inches. Made of selected oak, finished golden. Priced at \$100

**Parlor Cabinet**—Mahogany finish. Has 2 mirrors, china cabinet with plate glass shelf. Neat and attractive design. Priced at .....\$25.00

#### Dozens More

Many more interesting pieces are on display. You'll find our display of bedroom furniture one of the most complete to be found anywhere. You are welcome to come, and there's no obligation to purchase.

### BETTER TOWELS

—and by "Better" Towels We Mean Towels That'll Stand Unusually Strenuous Service

In Summertime the towel is used more than at any other season. There's so much more hard, strenuous use incident to morning "cold plunges", bathing at the sea shore and Summer camp, etc., that the towel must be a good one to withstand this extra "strain." . . . . .

We have an excellent choice of towels, and you'll find that they'll stand more use than most sorts. And the prices will compare most favorably with any quoted on any towels anywhere. We import them direct, hence these fair pricings.

Come in and see the recent additions to this stock and choose a few just to test the Weiler brand. . . . .

**Honeycomb Towels**—White cotton. Per dozen, \$1.00, or, each .....10¢

**Turkish Towels**—White cotton. Per dozen, \$2.75, or, each .....25¢

**Turkish Towels**—Colored cotton. Per dozen, \$4.00, or, each .....35¢

**Linen Towels**—Rough style. Per dozen, \$8.00, or, each .....75¢

**Linen Hemstitched Towels** .....60¢

**Embroidered Linen Towels** .....\$1.00

**Linen Damask Towels** .....\$1.25

Roller Towels and Towellings

### YOUR CAMP

Should Have This Dinner Set

If there is any place where dinnerware is necessary it is the Summer camp. Camp "works up" an excellent appetite. Perhaps you may say the "appetite" is strong enough to make the eatables taste "good" from any sort of tableware. But we think not, and anyway the cost of a dinner service suitable for the Summer cottage or camp is so small that you might just as well enjoy its use.

We have an interesting collection of low-priced sets suitable for use in Summer camps, and we call especial attention to some 98-piece sets in floral designs—choice colorings—at per set—

\$7.50, \$8 and \$9

### "Open Stock" Dinnerware

The "open stock" idea in dinnerware appeals to the home-keeper who appreciates the convenience of being able to instantly replace broken pieces and to add to the service as necessity may require or "finances" permit.

#### 16 Different Patterns

We have 16 different patterns in our "open stock" dinnerware. There's a choice that's broader than a great many stores offer in their entire line of dinnerware. Some real interesting patterns are offered, and we have these pieces in china or semi-porcelain.

Choose just as many pieces as you wish—add to them as you like. Spend a few cents or a few dollars. Does that appeal to you?

### NEW SHIPMENT OF "LIBBEY" CUT GLASS

A BIG shipment of that beautiful "Libbey" Cut Glass has just arrived, and will be ready for your inspection today. This consignment will show you an easy and efficient way to solve the problem of "What to give" that friend of yours who is about to become one of the Brides of June.

Come in and see the rich and charming patterns, deep cuttings and pure, clear glass peculiar to the products of the Libbey factory. You cannot help but like them, and there isn't a bride anywhere who wouldn't be delighted to receive a piece as a wedding gift.

Shown in a specially constructed room.

## SOCIAL AND PERSONAL

Mrs. Angus Smith will be "at home" this afternoon at 616 Trutch street.

Mr. T. Harrison, from Duncan, spent the week-end in town.

Mr. E. J. Palmer is in town from Chemainus.

Mr. J. P. Wright, from Bristol, England, is a visitor in the city.

Mr. Herbert Spiers, from Nanaimo, is in town on a business visit.

Mr. T. O. McKay left last night on a business trip to Vancouver.

Mrs. A. M. Duncan of Broughton street will not receive today nor again during the summer months.

Miss M. Elinor Riley of Tacoma, is in Victoria for a few days, the guest of Miss Cochrane, at the Criterion.

Mrs. E. B. Marvin will be "at home" on Thursday, 16th, and not again until 3rd Thursday in September.

Mrs. A. M. Bowen and Mrs. J. M. Hollins, "Bel Monte," Third street, will not receive again until September.

Mr. and Mrs. A. J. C. Galletty left yesterday via the Northern Pacific on a tour of Yellowstone Park.

Mr. E. A. Morris returned to Vancouver last night after a short business trip to this city.

Mr. Thomas Hooper, architect, went over to Vancouver last night on the Charmer.

Mr. and Mrs. G. O. Leask went over to Vancouver last night on the Charmer.

Mr. C. E. Sprent, from Hampshire, England, is a recent arrival in Victoria.

Mr. and Mrs. Irving Wheatcroft, from St. James Island, are visiting in town.

Mr. and Mrs. Willis and Mr. S. P. Banbridge are recent arrivals in Victoria from England. They are guests at the Empress.

Mr. Percy Rowcliffe and Mr. W. Rowcliffe, from Weymouth, England, are visitors in town from the Old Country.

Mrs. Mally P. Franck, of Victoria, is visiting her brother, Mr. K. K. Pelser, at the Algonquin, Tenth avenue and Ontario street, Vancouver.

Mr. and Mrs. Herbert Sprent, who have been in town for a few days visiting relatives, returned to Seattle yesterday.

Miss Amy Roberts, who has been on a month's visit to friends in town, returned yesterday to her home in Spokane.

Hon. W. J. Bowser, Attorney-General, returned from the Mainland yesterday as a passenger by the steamer Princess Charlotte.

The Misses Maloney, of Pandora avenue, have returned from Seattle, after attending the University ball and visiting relatives.

Mr. Clarke, who recently underwent an operation in St. Joseph's Hospital, has returned to his home on Mayne Island.

## A CLEANLY AGE

Twentieth Century Ideas Incline Toward Sanitation and Preventatives

Nowadays scientists believe that in cleanliness lies the secret of prevention of diseases.

To prevent a disease, remove the cause.

Just as unclean habits breed many diseases, so careless habits will breed dandruff. Improper use of another's brushes, combs, etc., will surely cause dandruff, and, in time, will just as surely cause baldness.

It's microbe infection, nothing more nor less.

Newbro's Herpicide kills the dandruff germ, and causes hair to grow luxuriantly. Herpicide is absolutely free from grease or other injurious substances.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. One dollar bottles guaranteed. Cyrus H. Bowser, local agent, 1228 Government street.

Mrs. Carne, Sr., Mrs. F. A. Walker, Mrs. D. Grant and Mrs. J. Grant, who have been attending the Rebekah Assembly at Kamloops, returned home on Sunday by the Princess Charlotte.

Mr. and Mrs. Alex. Peden and daughter have returned from Portland where they have been attending the Rose Carnival. It was the finest, all agree, in the history of the festival.

Mr. Pefer Carr, an "old time" resident of Victoria, left yesterday via the Northern Pacific and the steamship Tunsian for Ireland where he will reside in future.

The Right Rev. Bishop Perrin returned yesterday from Chemainus, where, on Sunday, he instituted the Rev. S. Ryall as clergyman of Chemainus and Westholme.

Mrs. G. L. Courtney and children, who have been spending the past four months in California, have returned to Victoria and are visiting Mrs. E. E. Blackwood, Linden Avenue.

Capt. F. Lewis, who brought the Boscowitz Steamship Company's new vessel "Venture" from England, left yesterday via the Northern Pacific and the Empress of Ireland on his return to the Old Country.

Among Victorians who left last week to attend the Portland Rose festival were Mrs. Gordon Hunter, Mrs. J. Johnson, Mr. and Mrs. T. S. Scott, Mr. and Mrs. J. B. Carley, Mr. and Mrs. Alex. Peden, Mr. and Mrs. M. C. Spence, Professor Cooper and Mr. W. E. Marsh.

## MUST CARRY OUT TERMS OF CONTRACT

Successful Tenderers for Civic Supplies Will Not Be Allowed to Take Liberties With the City

Hereafter those persons or firms to whom the city contracts for supply of materials are given must furnish a bond that they will carry out their contracts in the manner and within the time set forth in the contract. Trouble has arisen over the contract given to the Victoria Machinery Depot for the supply of brass goods for the waterworks department. The water commissioner informed the council last night that the contract was awarded the company on December 6 last on the understanding that the goods were to be manufactured in Victoria and to be delivered on or before March 1 under a penalty of \$10 per day for every day's delay. So far only a portion of the goods have been delivered and important work is now underway requiring the goods.

Mayor Morley referred to the fact that the Victoria Machinery Depot has also refused to carry out the contract awarded it for castings. Some steps must be taken to force the concerns securing city contracts to carry out their agreement. He could not see why the water commissioner had reported the matter to the council. It was his duty to enforce the terms of the contract.

The communication was returned to the water commissioner with instructions to levy the penalty according to the terms of the contract. Alderman Bannerman objected to what he termed discrimination shown people in connection with civic matters. There appeared to be different rulings for different people. He instanced the new stable recently erected by Mr. Steve White on View street. There was no cement floor and no sewer connection as required by bylaw. In another case, that of Mr. Caldwell's new stable on Cormorant street, the sanitary inspector had insisted on the cement floor and sewer connection and in a third case there were no sanitary arrangements whatever. The sanitary inspector will be requested to explain why in all cases the provisions of the bylaw are not insisted upon.

## Tenders for Asphalt.

Tenders for asphalt were opened and referred to the city purchasing agent and streets committee. Tenders were submitted by W. C. Walker, H. Angus, Connell Bros., S. A. Baird and the British Pacific Supply company. Tenders for the construction of permanent sidewalks on portions of Maple, Quadra, Work, Blanchard and Caledonia streets were received from the following: City engineer, \$19,707.21; A. Piko, \$18,015.40; P. Steadham, \$17,532.

Tenders for the erection of a house for the caretaker at Smith's Hill reservoir were received from the following: T. Fredericksen, \$2,500; Robert R. Scott, \$4,141; J. Holland, \$2,373; W. C. Van Munster, \$3,349; Harris & Northan, \$2,660; S. E. Matthews, \$3,400; T. Tubman, \$3,200; J. Smithers, \$3,200; Nelson & Co., \$2,925.

Tenders for garbage tins were received from the following: A. Blygh, \$2,931; W. Wilson, \$1; L. Peake, \$3.99; George Powell & Sons, \$3.19; Watson McGregor, \$2.75 and \$3; C. M. Cookson, \$2.95; P. R. Little, \$2.49; T. A. Johnson, \$2.55 and \$2.60; H. Cooley & Son, \$3; Hayward & Dodds, \$2.25 and \$2.65; A. & W. Wilson, \$5.50.

All the above tenders will be considered by the committees interested which will report back to the council.

The recommendation of the finance committee that no sum be given to the Christian Endeavor Society towards the entertainment fund which is being raised to entertain the visiting delegates at the forthcoming annual convention to be held here was adopted.

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice, thereby inducing good digestion. Sold by all druggists.

Summer Hats for the Boys and Girls in great variety, including straw, linen and canvas styles. Prices 25c, 50c and 75c. Robinson's Cash Stores, 642 Yates street.

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by all druggists.

# Bewitching Summer Muslins

## NEWS OF THE CITY

### King's Daughters to Meet

A general meeting of the King's Daughters will be held in the lecture room of St. Andrew's Church tomorrow at 3.30 p.m.

### To Hold Garden Party

St. Paul's branch, Esquimalt, women's auxiliary, will hold its annual garden party in the rectory grounds, with the kind permission of the Rector and Mrs. Hugh Allen, on Thursday, June 23rd, from 3 to 4 p.m.

### Returns to the North.

Capt. A. W. Sells of the north is in the city and is staying at the Dallas. He leaves for the great interior in a few days' time. Capt. Sells has had a large and varied experience in the interior, pathfinding, pushing back the frontier.

### Many Samples.

The office of the city purchasing agent yesterday presented the appearance of the shop the floor being covered by samples of garbage tins, tinders for which the city is now calling. Every variety, size and shape of tin was represented, and up to closing time last night they continued to arrive.

### Companies Act.

The Vancouver Board of Trade at a meeting to be held tonight will decide on a course of action with reference to the Companies Act which comes into force on July 1st. The Vancouver board has asked the secretary of the local board to furnish particulars of the attitude of local mercantile interests with a view to both organizations taking joint action in the matter.

### May Establish Factory.

Visiting Victoria with the object of ascertaining the possibilities of establishing a carriage, wagon, and chair manufactory here Mr. L. B. Royce, of Port Atkinson, Wis., president of the North Western Manufacturers Company, spent some hours in the city yesterday. He is greatly enamored of Western Canada and Victoria in particular and on his return east will report to his firm on the desirability of investing in manufacturing interests here.

### More Permits Issued.

Building permits were issued yesterday by the building inspector to Messrs. Parfitt Bros. for a two storey brick building to be erected at the corner of Fernwood road and Gladstone street to cost \$6,000, to be occupied by stores with rooming quarters above; to Mrs. Alice Porter for a dwelling in Burleigh to cost \$4,500; to A. Westendale for a store on Chambers street to cost \$300; to S. Millington for a dwelling on Linden Avenue to cost \$3,000, and to W. J. Newman for additions to his dwelling on Myrtle street to cost \$250.

### Would Settle on Island.

Letters from the United Kingdom, from Scottish people in particular, are now coming in to the offices of the Vancouver Island Development league inquiring about the possibilities of settling on the island. The campaign this year in the old country promises to be productive of unusually good results in view of the fact that fifty per cent of the entire advertising propaganda of the league is being distributed there. As for the first batches of inquiries come from a class of settlers generally regarded as belonging to the finest type.

### Regiment in Camp

The Fifth Regiment C. G. A. marched into camp on Sunday, Nos. 2 and 3 companies going to Macaulay Point and No. 1 company to Esquimalt. The companies marched to Pembroke street where special cars were provided, and Nos. 2 and 3 companies debarked at Lamson street and marched to Macaulay, where fatigue parties went to work quickly and cook houses, tents, marquees, etc., were soon put up, and a canvas city arose on the field among the oak trees. The location of the camp has been changed this year to a more elevated position. No. 1 company went to Esquimalt, going into the naval barracks in the naval yard.

Work began last night both at Macaulay and Esquimalt. No. 1 company went to work on the twelve pounder batteries of the Esquimalt defenses. No. 2 company went to the six-inch guns in Fort Macaulay, and No. 3 company manned the battery of six field guns parked in front of the camp.

### Left in Bad Condition

Considerable indignation is being expressed on the part of drivers of automobiles and other vehicles on account of the condition in which the B. C. E. R. Company has left Fort Street just above Douglas, where new tracks have recently been laid. Between the tracks where the softening filling has been used it is almost impossible for heavy traffic as the wheels sink down in the sand to the tires and it is with difficulty that they can be got free. The street is narrow at this point and is also very much used for all kinds of traffic, so that when two vehicles meet it is necessary for one of them to go through the sand. A number of motors have been thus caught, one a heavy car, on Thursday evening being extricated only after it had spent a considerable time in this sand hole.

### Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should be never be used except on prescriptions from reputable physicians, as the damage they do is tenfold to the good they can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

**Grant Racing Permit**

At a special meeting of the Oak Bay council held yesterday, a permit was granted to the Victoria Country Club to hold a six day race meet at the Willows track from June 18th-24th.

**The Blind Phenologist**

Prof. Cooper will lecture tonight at the Congregational Church, corner Blanchard and Pandora streets. Subject: "Self-Confidence as a Factor in Success."

**College of Music Exams**

The Toronto College of Music piano examination will be held at Miss S. F. Smith, A.T.C.M., Seaview, Dallas road, Saturday, 18th, 9 a.m. The examiner is Mr. W. E. Fairclough, F.R.C.O.

**Notice of Meeting**

The Victoria branch of the Imperial British Israel Association meets to-night, at 8 p.m., in the No. 1 hall, (first floor) of the A.O.U.W. building. The subject is: "History's Testimony to the Abrahamic Blessing through the British Race," continued from last week.

**Taxation in Oak Bay**

Taxation in the Oak Bay municipality for the current year will be at the rate of ten mills, with a one-sixth reduction for prompt payment. The school tax has been struck at one and a half mills, and the general debt rate at one and a half mills. The school tax this year is being kept separate from the general rate. On a recommendation of the finance committee the above rates were approved by the Oak Bay council at a special meeting held yesterday afternoon.

**Another Accident at Jordan River**

Another accident occurred yesterday morning at the Vancouver Island Power Company's plant at Jordan River. An Italian laborer in some manner or other slipped and fell off a pile of timber and sustained severe bruises. Beyond this he was fortunate to escape without injury. He was brought to the city and is being taken care of at St. Joseph's Hospital, where he will have to remain for a week or two. Last night it was impossible to obtain his name, as he does not understand English well enough to make a reply.

**COMPETITION IN ROSE GROWING**

Different Districts to Make Effort to Carry off the Forthcoming Annual Show.

There will be considerable competition among the different districts for the honor of carrying off the largest number of prizes at the forthcoming rose show which is to be held on the 24th inst. Oak Bay will make a strong bid for first place. There are a large number of growers in that district prominent among them being R. Beaven the president of the Horticultural Society, Judge Lamman, Percy Wollaston, F. B. Pemberton, and A. J. Bland.

There was once an idea prevalent that roses could be grown only on land that had a clay subsoil. This was exploded long ago and roses are now grown in Victoria on gravel, rock, clay, sand, or any combination of the four. As long as they are fertilized and watered they seem to do well enough, and many people do not even water but cultivate well instead. At Oak Bay the soil is very light yet the roses thrive as well as anywhere in the city. Esquimalt has a number of rose growers who will exhibit, and James Bay also has some. There is also the more central district surrounding Fort and Belcher streets. The last mentioned district is rather early and many of the roses grown there are over before the day of the show, but the exhibitors prune hard and late in order to keep them back.

Competition is likely to be keen all round this year. A number of new people have already notified the secretary of the show, and it is known that their roses are ready at the time, and the prospects are that the biggest and best show ever held will be the result.

**TO LAY CORNER STONE OF NEW MISSION**

Inspection of Work Upon New Baptist Structure to Be Marked by Usual Ceremonies.

Tomorrow evening at 7.15 o'clock the ceremony of laying the corner stone of the new Baptist Mission building will take place at the corner of Douglas and Roderick streets (just at the terminus of the Douglas street car line). The present Burnside Mission (Tannymoon road) was organized some seventeen years ago by the Calvary—now First Baptist church, and has been continuously conducted since that time. It has largely outgrown the present premises and some months ago it was decided to erect a new building.

ling. The site was chosen and two lots purchased on the above location, having a frontage of sixty-eight feet on Douglas street and a depth of one hundred and nineteen feet. The First Baptist church as the parent of the mission are financing the purchase of the site and also supplying the cement blocks with which the new building is being constructed. The building will measure fifty-six by fifty-eight feet, with full-sized basement, class-rooms etc.

At the ceremony on Wednesday evening representatives will be present from the Saanich municipality, the B. C. Baptist convention, the local ministerial association and sister churches, and the First Baptist church. The choir and members of the Burnside Mission Sunday school will assist in singing and the ladies will dispense light refreshments. An offering will be received toward the building fund and a hearty invitation is extended to all friends in the district and the public generally to be present on this historic occasion.

**PIONEER OF KAMLOOPS PASSES AWAY HERE**

Louis Campbell, Well Known in the Province Succumbs—Came to Interior in the Fifties.

There passed away at the St. Joseph's Hospital on Saturday night last at the age of 78 years, one of the pioneers of the province in the person of Louis Campbell. The deceased had a growth of cancer in the neck and during his stay in the local hospital had been suffering intense pain. Death was expected and he passed peacefully away at 8:45 p. m.

The late Mr. Campbell was a native of Custer, Ohio, and received his education at Huntington, Indiana. He remained in the United States for some time, carrying on the trade of a cooper. At the age of 27 years, with Mr. G. B. Martin, formerly of the Agricultural Department at the Parliament buildings, and several other companions, he came to the coast, arriving here in the year 1858.

On his arrival in British Columbia he engaged in mining, on the Fraser river for some time, then he ran a pack train from Yale to Cariboo. He remained at this for some years, going into Oregon in the year 1866, from where, in partnership with John Wilson, he brought the first herd of cattle into the country about 1870 or '68.

When they arrived at the Thompson river the partners divided their stock between themselves, and Mr. Campbell settled on a farm on the south side of the river about twelve miles below Kamloops. He then took up stock raising on a large scale, and has been considered the largest cattleowner in the province, having between 2,000 and 3,000 head. About two or three years ago he retired from active participation in his ranching business, on account of the suffering which he endured from the ravage of cancer. He had been in Victoria to receive treatment for two or three times during the last three years, but could secure no permanent relief.

The late Mr. Campbell's ranch at Kamloops extends for a distance of six miles down the river, and stretches back to the mountains. Besides owning this he had large property interests in the interior, particularly in Kamloops, where he owned some of the most valuable real estate in the city. Mr. Campbell was a very dry type of man and was highly esteemed by all with whom he came in contact. He was an active worker in the Presbyterian church. He was also a valued member of the Pioneer's Society and the Independent Order of Oddfellows at Kamloops, and the news of his death will be received with sincere regret by all his associates in these societies.

Although he had been in the province for the last 52 years, the late Mr. Campbell has never been without his belongings except for an occasional trip to the neighboring part of the United States, and it was very seldom that he even left Kamloops to come to the coast, only doing so when compelled. When he arrived in the city about three weeks ago to enter St. Joseph's hospital, it proved to be his last. During the time which he has been a patient here there has never been the slightest hope of his recovery, and his friends knew that his life could be prolonged for only a very short period.

At the time of his death there was present only one member of his family, his daughter, Mrs. Buse, who has been in the city with her father during the time he has been receiving treatment at the local hospital. Besides Mrs. Buse there survived him a widow, four sons and another daughter. There are also several grandchildren and great grandchildren. Mr. A. J. McIntyre, his solicitor, from Kamloops, was also in the city at the time of his death, attending to his affairs.

The remains were removed to Hanna's parlors, from where they were shipped on Sunday afternoon by the Princess Victoria to Vancouver and thence to Kamloops, where interment will take place. Mrs. Buse and Mr. McIntyre accompanied the remains to the interior.

**SHAWNIGAN LAKE DANCE**

On Saturday evening next a flannel dance will be given at the Shawnigan Lake Athletic Association in their new club house at Koenigs. The dance tickets on sale here are limited to seventy-five couples. No special train service will be provided, but special rates at the hotel will be extended those purchasing dance tickets. The association's opening dance was a most successful affair and the present promises to eclipse it. Tickets are on sale at A. Peden's, Fort street.

**AMUSEMENTS**

**Maude Adams**

The central figure and moving spirit of J. M. Barrie's new comedy, "What Every Woman Knows," at the Victoria Theatre on Friday evening next, is Maggie Wylie, who, as one critic says, "knows what every woman knows, that men are little boys who need a lot of forgiving and flattery and help and fooling along while they are growing up into whatever the woman chooses to make them." Maggie "mothers" her husband, John, in the most lovely way, and does succeed in making of him what she chooses. "He's just my little boy" is her only reason for continuing to love him even when he announces his preference for another woman. The ineffable tenderness with which Maude Adams says that line is something that cannot be recalled without a lump in the throat. Barrie has never written anything that makes so effective an appeal to theatregoers as does "What Every Woman Knows." It

appeals to women and it appeals to men. It shows no distinction, no class, it strikes a note that is universal, and its scenes might be laid anywhere in the wide world where men marry and have ambitions. In the comedy Miss Adams exercises her wonderful charm in a delightful manner, and so it is not to be marvelled at that, together with the play, she is enjoying most pronounced success.

**Pantages Real Vaudeville.**

Have you ever witnessed the Hungarian dance? If not, don't fail to attend Pantages this week, and see the Hartmann. If you have, be sure and go anyway, for the Hartmanns are the best Hungarian dancers that have ever appeared in America. This act is a decided novelty to Victoria audiences, and well worth seeing if there wasn't anything else on the bill—but there is several other big features. The Anderson four, for instance, in a miniature musical comedy "Mischievous Bob," replete with excellent juvenile singing and dancing and laughable comedy.

Bob Hendricks, the musical man, kept last night's audience in a state of continuous laughter during his performance, while Mary Gray was exceedingly entertaining with a very clever budget of German stories and songs. Good moving pictures closed a very good show.

**New Grand Theatre**

An act that can score as many hearty laughs as Joe F. Willard, Harry Bond and their warhorse, "Devil-skin," did last night, has not been played here this season. The audience laughed, screamed, laughed again, and then laughed some more. Went into convulsions and nearly had hysterics over the funny situations and complications that Harry Bond as the captain got Joe F. Willard, as "Philip Schlitz," the German war correspondent, into. The act is excruciatingly funny, and is well presented as to military detail, costuming, stage setting, etc.

Polly Wiggles had the audience in screams of laughter, also. Her real name is Helen Stuart. She wears long plaits, diamond hose and an original first century costume. Not quite sure about the first century, it might have been the second century, but it is certain such a raiment had not been invented up to the time of Louis XVI. Polly gets the house from the first moment and never loses it.

Otto and Emily Metz present a high class singing novelty. They sing a number of old songs which the audience would gladly remain and listen to for an hour. The pair were appreciated to the full, and had they been willing to give encores would have been listened to with great satisfaction.

Rives, a soubrette with a picturesque figure and no voice does not make good in her first two numbers, but in her toe dance she recovers lost ground and goes ahead of the audience, but the climax of the act brings down the house in roars of laughter. Rives was undoubtedly a hit.

Mabel Moore is the woman with the most remarkable muscular development. Possessing exceptional arm and shoulder development she is a girl to be avoided if there is likely to be a crowd. Her trapeze work was excellent, she performing all the hard feats that are generally left to the male order of entertainer. Thomas J. Price sang a lovely song for children, the words of which are those of elderly people, and there were the moving pictures to end a good show.

**MAJESTIC THEATRE**

Monday and Tuesday

The Unchanging Sea—There is perhaps no work from the pen of the eminent English clergyman and poet, Charles Kingsley, better known than his tragic poem, "The Three Fishers." Its a story of sympathetic interest. A young married couple are living happily in the little fishing village, and at the opening of the story the young husband is one of the

Three fishers went sailing away to the West, Away to the West as the sun went down, Each thought on the woman who loved him best. And the women stood watching them out of the town, For men must work and women must weep, And there's nothing to earn and many to keep, Though the harbor bar be moaning.

As the days rolled by the "Three wives sat up in the lighthouse tower. They looked at the squall, and they looked at the shower," but no sign of their husbands' return could be seen. Ah! little did they know that on a distant shore "three fishers lay out on the shining sands, in the morning gleam as the tide went down." When the rescue party brings the fishers in they find life in one, the young husband. With the tender care of the folk in the distant land he regains his health; but his memory is a blank. All efforts to recall the past prove futile. Meanwhile, his poor wife, with her baby, sits gazing out to the sea, still hopeful of his return, but in vain. The years roll by, and her child grows into young womanhood to be courted by one of the young fishermen of the coast village, and it is upon the day that the young couple are preparing for their wedding that the long lost husband, having started the long lost wife, once more lands on the shore of his native village. The familiar scenes restore his memory. It seems to him that it was only on the yesterday he left, and he rushes eagerly along the coast to meet his wife. There he stands, ever hopeful. At first they hardly recognize each other, time having wrought such a change, but enwrapped in each others' arms they realize fate's injunction:

For men must work and women must weep, And the sooner it's over the sooner to sleep, And good-by to the bar and its moaning.

The scenic beauty of the subject is exceptional; the other films are, "Mr. Mix at the Marde Gras," a scintillating comedy; "The Pirate's Fiancée," drama, "The Miner of Camille," very good and amusing; "Ready in a Minute," a humorous production, which proves how well adapted the motion picture is to express anything really funny.

The splendid work of Chamberlain's Stomach and Liver Tablets is daily coming to light. No such grand remedy for liver and bowel troubles was ever known before. Thousands bless them for curing constipation, sick headache, biliousness, jaundice and indigestion. Sold by all druggists.

pectus on application.  
Principal—Mrs. Stedham, Cert. Eng.

Monkey Brand Soap cleans "when used"  
silk, steel, iron and tinware, knives and  
locks, and all kinds of cutlery.

## In Woman's Realm

### Here and There

That the feeling of loyalty to the  
Empire is growing fast is shown by the  
general celebration of Empire Day.  
This year the event was overshadowed  
by mourning for the death of the king.  
But this did not prevent the lessons of  
the day being taught. Indeed, the  
universal mourning was itself a sign  
of a unity of feeling which is the  
strongest bond of empire.

Though in most cities there was no  
noisy demonstration, even among the  
school children, preparations for the  
keeping of the day were made on a  
larger scale than ever before. An ar-  
ticle in the Westminster Gazette shows  
that the movement has spread to the  
smaller colonies. In the Seychelles,  
Trinidad and Antigua, the school chil-  
dren and their elders planned to keep  
the day, and even on Fanning Island  
the little community shows that it feels  
that it is part of the great whole. It  
will, as time goes on, be easy for the  
teaching of history and much of the  
literature of the schools to be so ar-  
ranged that the celebration of Empire  
Day may be the end of the review of  
the year's work. It will give the char-  
acters and the facts of history a new  
and a real interest when the pupils see  
that the work begun centuries since is  
still going on, and that each must do

his part, however small, in carrying  
out the great scheme. As for geogra-  
phy, there are but few lessons in which  
the teacher cannot find an opportunity  
of showing the greatness of the re-  
sources and the extent of the Empire.  
It is such teaching that gives Empire  
its value, and the work of the day  
be done in the schools in this way is  
far more important than any demon-  
strations, however imposing or elabo-  
rate. This does not, however, make  
the setting apart of one day on which the  
thoughts of all, young and old, shall  
be specially directed towards the Em-  
pire, with all its glorious traditions, its  
present greatness and its future pos-  
sibilities unnecessary. There are but  
too many occasions on which the faults,  
the weaknesses and the failures of men  
and women, not only in Canada, but in  
the Mother Land and our sister col-  
onies, are under our eyes. It is not too  
soon now to begin to prepare to study  
what has been done, rather than what  
has been left undone. It is in this way  
that the keeping of Empire Day can be  
made a real help to the closer union  
which is the dream of some of the  
greatest men of our time.

The Medical Association, which met  
a few days ago in Toronto, passed a  
resolution asking the Dominion govern-  
ment to establish a laboratory for the  
purpose of manufacturing anti-toxin  
and other sera, to be distributed at  
cost throughout Canada. The  
mover of the resolution was Dr. Fagan.  
The supplies of the anti-toxin, so  
necessary in treating diphtheria, come  
from England and France, as well as  
from the United States. It is said that  
in the long transit the virtues of this  
valuable remedy is sometimes im-  
paired. While it is not stated that the  
high cost of the anti-toxin prevents its  
use, it cannot be felt that the pub-  
lic would profit greatly if by the pro-  
posed plan the price would be greatly  
lessened and its purity be guaranteed.

Technical School. So it would seem  
that the business women are not for-  
getful of the claims of patriotism and  
that they recognize that most of the  
members of the club will, one of these  
days, have homes of their own. But  
perhaps the most important work done  
by the club is the arrangement of out-  
door trips. Jaunts are made into the  
country on holidays and evenings. In  
a large city the opportunity given by  
co-operation for recreation is a great  
benefit. Could not something of the  
same kind be done here?

### LEGAL INTELLIGENCE

Court of Appeal

Rex vs. Watt.—This was a motion  
for leave to appeal and for an order  
directing the trial judge, Gregory, J.,  
to state a case for the opinion of the  
Court of Appeal. In October, 1909,  
the accused was arraigned at the  
Nanaimo assizes on a charge of murder.  
Counsel for the Crown, W. J.  
Taylor, K.C., then moved, under sec-  
tion 967 of the Code, for an inquiry  
as to the sanity of the accused, stat-  
ing that in his counsel's opinion,  
from the evidence in his possession,  
this point should be cleared up, in  
justice to the accused, before he was  
put on trial.

Alkman, for the accused, objected,  
and after argument, the then judge  
of assize, Clement, J., stood the case  
over to the spring assizes, saying  
"there will (then) be that preliminary  
trial first to determine. Of course  
when that time arrives there may  
not be any doubt about his sanity, or,  
on the other hand, there may not be  
any doubt about his insanity."

The case came on for trial at the  
spring assizes, in May, when the ver-  
dict of manslaughter was returned,  
and before the verdict was recorded,  
Alkman, for the accused, objected that  
the inquiry directed by Clement, J.,  
should have been held before the trial.  
The objection was over-ruled;  
hence this motion.

Alkman, in support of the motion:  
The trial on indictment could not  
take place until after the holding of  
the inquiry into the prisoner's san-  
ity, as directed by Clement, J. It  
was not the duty of counsel for the  
accused to raise the point, as the in-  
quiry had been asked for by the  
Crown. We did not consent to any-  
thing, and even if we did, the accus-  
ed is not prejudiced thereby.

Irving, J. A.: You had not pleaded  
to the indictment before Clement, J.,  
when the inquiry was asked for and  
directed; and then you came before  
Gregory, J., and pleaded?

Yes. Of course the plea of not  
guilty, raises all questions of juris-  
diction. The Crown having moved  
the Court for an order directing an  
inquiry as to sanity, should have pro-  
ceeded with that order.

Maclean, K.C. (D. A.-G.), for the  
Crown, contra: This is a matter of  
procedure solely, and not of jurisdic-  
tion. The objection should have been  
taken before the trial was gone into,  
and counsel for accused cannot stand  
by and take chances of an acquittal,  
but when a verdict goes against the  
accused, then raise an objection of  
this kind. The order that was made  
was doubtless that an inquiry should  
be held as to the prisoner's sanity  
at the time he was up for trial. The  
judge could have made such an order  
then, and then traversed the trial on  
the indictment to the next assizes.

Alkman, in reply: The statute says  
a certain thing must be done when  
the order is made. That has not been  
done, and the accused is prejudiced.  
Martin, J. A.: How can you be  
prejudiced by an impossibility? That  
order was exhausted by effluxion of  
time. The investigation must be  
made then, at the time of the trial,  
to decide the man's sanity to stand or  
be put on his trial. This was not  
done by that judge or by that jury at  
that time. How can it be done now,  
or how can a thing like that help you?  
The judge went beyond the law here  
and directed an issue to be had at the  
following assizes. In doing so we  
say he erred, and did us substantial  
wrong.

Macdonald, C. J. A.: I think the  
motion must be dismissed. What the  
learned judge really did, it seems to  
me, was to direct counsel how they  
should proceed at the next assizes.

Irving, J. A.: The object of section  
967 was to secure a fair trial to the  
accused. Provision is made to raise  
a question of sanity at any time be-  
fore the verdict is given; or he may  
be tried on that point before the jury  
is sworn. It therefore seems to be  
a matter of procedure. When a man  
is represented by counsel, and the  
prisoner is called upon to plead to the  
indictment, if the counsel relies  
on the question of the man's sanity,  
it is his duty to bring it before the  
judge, and if he sits still and puts  
himself before the jury, he practically  
says he is ready for trial and his  
client is capable of advising him. I  
think in the present case counsel  
practically elected to waive and abandon  
any order that was made before  
and agreed that the matter should  
go to trial. I do not think that any  
injustice has been done, and that the  
application should be refused.

Martin, J. A., agreed that the mo-  
tion should be dismissed for reasons  
to be handed down in writing.  
Gallagher, J. A., having some uncer-  
tainty as to what order was meant  
by Clement, J., did not feel like dis-  
agreeing with the conclusion arrived  
at by the other members of the Court.

### SHOULD WIN THE AMATEUR TITLE

Victoria's Chances of Carrying Off This Year's Championship Are Very Rosy—Meeting This Evening

#### AMATEUR LACROSSE

Teams	Played	W.	L.	Pts.
VICTORIA	1	1	0	2
Vancouver	2	1	1	2
Westminster	1	0	1	—

Victoria lacrosse fans are waxing enthusiastic over the prospects of Victoria winning the British Columbia lacrosse championship in the senior amateur league this year.

Following the success of Victoria's Rugby players and track athletes, the local lacrosse boys are out to win the championship, and have made a creditable start on the way to victory and the Klammock trophy.

That Victoria has a better chance this year of winning the championship than for years past is evident from the fact that the Vancouver amateur twelve downed the Salmon Belles at Vancouver on Saturday. As the Vancouver webbed quick widders were completely smothered by the local twelve here on May 24th, it looks bright for the Capital city twelve.

One week from the coming Saturday Victoria will send the best twelve players in the city to New Westminster to meet sticks with the aggregation of that town and the locals are leaving no stone unturned to make the trip a successful one. The local clubs are practising hard and getting into great shape. The senior city league games are being played regularly, and from the cream of the material in the various twelves, the representative team will be selected. The same selection committee is being retained for the next game, this committee being: Sam Lorimer, chairman, Cloverdale; James Dakers, North Ward; and George Okell, Victoria West. The next city league match will be played tomorrow night, when the North Ward cruises will battle against the Cloverdales at the Royal Athletic park, and any of the Victoria lacrosse fans who want to get a line on some of the Victoria material would do well to take a little jog up there and see the way some of the sturdy young men with that is developed and which some day should bring back lacrosse glory to Victoria that is much needed.

#### Meeting Tonight

Secretary John P. Sweeney wants a full attendance of the executive of the Victoria lacrosse club on deck this evening, as there are several important matters that are to be brought up regarding the affairs of the club that need immediate attention. As there is but little over a week before the team will be selected, to go to Westminster, it is very important that all the members of the executive should get together this evening.

#### BASEBALL ACTIVE ALONG THE LINE

Matches Being Played Daily at Duncans, Chemainus, Cobble Hill, and Shawnigan.

Baseball is active in the towns and resorts up the island these days, and many matches are being played around Duncans, Chemainus, Cobble Hill and Shawnigan.

On the Cobble Hill grounds the nine of that town won a narrow and hard-earned game from George Koenig's Shawnigan Lake wizards, by the close score of eight runs to six. Tom Rendall pitched good ball for the Shawnigan nine, while George Koenig and McIntyre were the heavy hitters.

The batteries were Shearman and Sheppard, Cobble Hill, and Rendall and Downey, Shawnigan lake.

Randal Dundas made an ampie that cannot be beat in Shawnigan district.

#### CAPITALS DEFEAT THE MAPLE LEAFS

By 18 to 5 the Capitals last night defeated the Maple Leafs in a match played on the Beach diamond, Dallas road. Irvine pitched and Ward caught for the losers, while Thomas and Jones were battery for the successful ones. While the score shows a decisive victory for the Maple Leafs, the contest was not badly one-sided. Good ball was played by both. Northcott gave satisfaction as referee.

#### JAPANESE PLAY VERY SPEEDY BALL

In a match between the Maple Leafs and Nippons on Sunday morning, the Japanese were overcome, after a hot nine innings, by a score of 7 to 1. It was anybody's game to within measurable distance of the conclusion. The Orientals put up a fast article of ball, being sure in the outfield, and, if anything, just a little too speedy in the infield, the fault being that involved in the adage, "more haste less speed."

#### HILLS SCALP THE CITIZEN SOLDIERS

Fifth Regiment Defeated in Last Night's Baseball Match—Game Late in Starting and Finishes in Twilight

The Beacon Hill team added another victory to its credit last evening, when they defeated the Fifth Regiment by the score of 9 to 1.

Injustice to the regimental team, however, it must be stated that several of their regular players were unable to play, owing to their presence being required at camp.

For the losers Camusa and Kinlock formed the battery, the former letting the heavy-hitting Hills off with only seven hits, striking out nine of his opponents. Townsley and Scott were on the points for the Hill team, the former pitching a very steady game, striking out twelve of his opponents, and allowing them five hits.

The game was very interesting from a spectators standpoint, but the last two innings had to be played in semi-darkness, owing to a delay in starting the game until after seven o'clock, although all league fixtures are supposed to start at 6.30 o'clock. If the players intend to make these games popular it will be necessary for them to start on time.

#### KINGFISHER FLY DID EXECUTION

Beautiful Shawnigan Lake Trout Landed by F. Wille in Sight of Hotel—With Cowichan River Devotees

The Kingfisher fly did considerable execution at Shawnigan Lake on Sunday afternoon. At a point between Koenig's Hotel and the lumber company F. Wille whipped the water with this somewhat gaudy feather and was remarkably successful. He landed four or five fish, all beautiful specimens, and one exceptionally good. It weighed just an ounce below the three pound mark, and being played on a light rod, made splendid sport. Of the large number who went to Cowichan River this week-end there are few who report good results. Those who went almost to tide-water, from report, did much better than the placatorial bands who travelled upstream. However, several funny ones were found in some of the large pools in a humor to feed, and the struggles that ensued are described by the fishermen concerned in the usual graphic style. The river can always be depended upon to furnish one or two good young every week, and this is no exception. Generally, however, Cowichan devotees do not have more than two or three in their creels on the down trip.

#### WALKED ACROSS ISLAND

Mr. Michael King Sauntered Seventy-Eight Miles and Killed Bear in Three Days.

Mr. Michael King, who is interested in coal operations at Taku, and was supposed to be marooned at that point, the steamer Tees being unable to effect a landing because of the roughness of the weather some weeks ago, is in the city. He footed it across the island, travelling seventy-eight miles, over an exceedingly heavy country broken by swollen streams, in less than three days. Apart from the difficulty of the going, the trip was uneventful, bar the killing of a bear. Mr. King is most optimistic over the enterprise with which he is identified.

#### CANADIAN VIEW OF AMATEURISM

Amateur Who Plays With Pro in League Game Or Match For Stake Loses Standing—Future Prospects

There seems to be some doubt in certain quarters as to the distinction between amateurism and professionalism as laid down by the C.A.A.U., with which body is affiliated the B.C.A.A.U. A contemporary asserts, rather dogmatically, that an amateur becomes a professional if he goes out in a field and kicks the pigskin about with one who is in the habit of accepting pay for playing that or any other game. This is incorrect.

If a number of amateur men go out and meet some pros. in a match that is a pure exhibition, a game where there are no gate receipts or is not included in some regular schedule, their standing is just as unsullied after the contest as it was before the whistle blew. The mere mixing of a soccer, lacrosse, or any other athletic field doesn't make the amateur "pro facto," to use the stilted term employed by the concern to which this has special reference, a pro. It is when the money element enters into the transaction that the amateur becomes polluted, or when he allows himself to be drawn into regular competition in which professionals are participating. The distinction is clear and simple.

Therefore, if, as is emphatically stated, there was no gate receipt or stake for the recent match between Vancouver pros. and Nanaimo, the latter do not become of the former's class as a result of that performance. At present, however, no one in Victoria is concerned as to the amateur status of the Nanaimo soccerists. The island championship series have been completed and the titles go to Lady-smith. The "jig is up" for this season. Next year local officials of the B.C.A.A.U. are hopeful that matters will right themselves. They look to see Con Jones, of Vax, over, proceed with the organization of a purely professional league. If he does so it will be a good thing. Then Nanaimo and Ladysmith will have an opportunity to choose. They will either fall in line with the pros., or, declaring against them, will become affiliated with the Union and continue, as in the past, to exchange friendly and thorough keen competitive relations with Victoria, the issue being the Island Amateur Championship.

#### SWEDISH CHAMP TRIMS CROWLEY

BALTIMORE, June 13.—In a 15-mile open air foot race announced for the world's championship for the distance, tonight, of Sweden, Saturday night, easily defeated James Crowley, of New York, being one-seventh of a mile in the lead at the finish. The winner's time was 1:32.

#### DISCUSS SCHEME

Fort Street Owners Meet City Council and Go Into Method of Meeting Cost.

If the majority of the owners on Fort street, between Douglas and Cook streets, approve of the method of assessing for the cost of the street widening scheme, the work will be proceeded with. A requisition signed by a number of owners was read at the meeting of the city council last night, at which some forty owners were present for the purpose of discussing with the council the scheme of assessment as submitted by the latter body. The matter was gone into at length, some of the owners objecting to the scheme being obligatory on the whole street between Douglas and Cook streets. They thought it would be better if it were so arranged that where the majority of the owners in a block were against the improvement proposition they could stay out of it.

The city engineer and assessor submitted a report showing just what each owner will have to pay for the pavement and sidewalks, the estimated value of the land to be appropriated for street widening, the amount to be allowed in compensation for such property and the net cost to the owner of the scheme. The idea is to charge the cost of the pavement and sidewalks on a frontage basis, but the cost of the expropriation proceedings, the compensation to be given by the city to the owners, and other charges in connection therewith, is to be charged on the basis of the assessable value of the property. By this method the more valuable the property is the more it will pay towards the scheme. At first

the widening part of the scheme was to be paid for on a frontage basis, but this was held to be most inequitable and the assessment basis was decided upon.

Last night's meeting thoroughly discussed the whole matter and while there was some objection to the scheme, it was decided that the requisition as presented, calling on the city to undertake the work according to the plan as outlined above for apportioning the cost should be circulated among all owners, and if a majority in number and value favored the scheme, the council should go ahead with it.

As explained last night by Alderman Bannerman, the cost of the pavement and sidewalks would amount to about \$15 per front foot. In the case of the expropriation proceedings where the cost was based on the assessed value of the property to be benefited, it had been estimated that to compensate owners for the property taken, fix up such buildings as have to be moved, and, in fact, fully completing the scheme, will cost \$130,000, on an assessed value of the holdings affected of \$555,000.

The city engineer submitted figures showing that the cost of expropriation would be, for land, \$91,296, and for improvements, \$40,601, while the cost of pavements is estimated at \$75,439, and sidewalks, \$15,600. The requisition will be circulated this week and come before the council again at a subsequent meeting.

#### TWENTY-NINE LIVES ARE LOST

(Continued from Page 1)  
someone turned in the first alarm from a nearby box. The first ladder was on the scene within two minutes, and the firemen found the windows of the upper flats crowded with people, with the crowd on the outside urging them not to jump. No one jumped. Ladder after ladder as it arrived was quickly placed in position and those in danger were brought to the ground.

Little Girl's Bravery.  
There were some real examples of heroism. A ladder was hoisted reaching to the fourth floor, the one on which the bindery was located. It came near one window and not far away from another. From the latter a little girl crept along the coping until she could reach the ladder. This she grasped with one hand and with the other lent a helping hand to girls almost twice her size. When the girls had reached the ladder and had been brought down to safety she came down also. By this time fire had started, and smoke was pouring from the front window, through which she was compelled to grope her way. When she reached the bottom of the ladder she fainted.

A dozen injured people were brought from the ruins by the firemen many with broken limbs. Of these rescues, that of Fred Vidal, a stereographer, most sensational. Half an hour after the firemen reached the building Vidal was heard groaning by the firemen, pinned under a girder which he could not dislodge. There was nothing to be done but to cut it away. Despite the fact that the firemen were creeping perilously near, the firemen Godbout, Beauclerc and the Herald labored at the task. In the crowd outside was Rev. Father Martin. When he heard of the fight against death that was being waged against doubtful odds, he went into the building and administered the last rights of the church to the semi-conscious man. Finally, however, the men were too tired and the fire released, not a moment too soon. Both his legs and several ribs were broken.

Narrow Escapes  
Every member of the editorial staff escaped unharmed, their quarters being in the front of the building, and with the rear of the building extending to the rear. John C. Walsh, the editor of the Herald, was sitting at his desk when he heard the crackling sound previously referred to. He looked up and from the opening into the local room saw the beams in the ceiling disappearing one after another. Mr. Walsh joined the other members of the staff on the windows and, from which he was rescued by firemen.

Fred Maloney, a linotype, has the machine located farthest from the Victoria square windows of the room. He arose from the chair, and as he did so the machine on which he had been working disappeared from view. He broke through just where his chair was.

James Coady, a pressman working on the second floor, fell through to the first. He thinks the press fell with him. Landing, he found himself next to a glass partition separating the main job press room from the business office. Breaking his way through he escaped by the front door.

Where Fault Lay.  
The cause of the disaster was plainly the fault of the supports of the tank of the sprinkler system. This tank was located about the centre of the building a little to the rear. The building has a frontage of about sixty feet and was an old structure, remodeled for the purposes of the newspaper, and its job department. Originally two stories, a heavy stone wall ran through the centre from front to rear. From this dividing wall to the side wall a steel girder had been placed and on this the tank rested. As the tank was found on the other side of the wall from that on which it was placed, the supposition is that this centre wall gave way.

Chief Tremblay of the fire department was most outspoken. "To put water tank on the roof of an old building like that," he declared "was nothing short of criminal."

Building Inspector Chausse on the other hand stated he had examined the building when some changes were being made a year ago, and found everything all right, the architects certifying that it was safe.

The building was valued at \$150,000 and was owned by the Herald company, while the valuation of the plant is placed at \$300,000. About half the damage being from water, it is believed that the newspaper presses, two machines which were located in the basement near the Victoria Square frontage, were not seriously damaged. The remainder of the plant is hopelessly ruined. The insurance on the building and plant totalled \$177,000. It is estimated that the insurance bill will reach about sixty per cent of this amount.

The Herald appeared this evening as an eight page paper, arrangements

No! This is not meant to represent how the "big smoke" will look after the 4th of July. It is the Victoria Fuel Company's Cupid. He doesn't carry any bow or arrow, but just simply a scuttle of

# Malta-Vita

"The Perfect Food"

Little children like Malta-Vita but that isn't the best reason for letting them have it. Malta-Vita provides them with all the nourishment their young bodies need, and in such a form that they digest it easily. This perfect malted whole-wheat food is the ideal food for children. It makes them healthy and robust.

There is nothing else so delicious, so satisfying as a bowlful of Malta-Vita with milk or cream. It's good for the children whenever they are hungry. Always ready to eat. No cooking. No inconvenience. All grocers.

CHINESE IN SHIP'S BUNKERS

Stowaways Found Hidden on River Clyde When She Reached Tacoma — Oanfa Coming to Discharge Today

When the steamer River Clyde of the Weir line reached Tacoma after discharging her cargo at Victoria and Vancouver, five Chinese were found on board secreted in the bunkers, and officers of the steamer contend that they must have been brought on board at Vancouver for the purpose of being surreptitiously landed in the United States. This contention not being proved, the Tacoma immigration authorities have ordered the deportation of the five to China at the expense of the line.

When the River Clyde was nearing Tacoma the steamer Oanfa from Victoria for that port overhauled her and there was a race with the privilege of taking the only vacant berth as the prize. The River Clyde passed quarantine at Port Townsend an hour in advance of the Oanfa, but the Blue Funnel liner went by her and won the race by a narrow margin.

The Oanfa is expected at the outer wharf this morning, returning from Tacoma to discharge the cargo consigned to this port. The cable steamer Restorer will be brought to the outer wharf from Esquimalt today and moored alongside the big Holt freighter to receive on board 45 miles of cable for the C. P. R. Telegraph Company, which is to be laid by the Restorer between Departure Bay and Point Grey during the next few days. After taking the cable on board the Restorer will steam toward Point Grey

and will moor the shore end of about a mile and a half of cable on a scow at Spanish Bank. She will then steam to Departure Bay, dropping the balance of the cable in the Gulf during the passage. The Oanfa has about 1,800 tons of general freight for this port.

**Long With Line**

Capt. Conrad, of the Oanfa, has been in command of steamers of this line for over 22 years. His first vessel was the old Oolong, now Bucanar, which came to the North Pacific coast in the early nineties. Later he was appointed to command the Moyne and then the Pakling, which ran for the United States Government to the Philippines. For one voyage he commanded the steamship Tantalus of the Blue Funnel line, which, though belonging to the British line, sailed under the Dutch flag from Antwerp and Liverpool to Java. In October, 1904, Capt. Conrad took the Blue Funnel liner Keemun and has been with her ever since. He obtained his first sea experience in the famous clipper tea ship Black Prince, being first apprentice and later third mate. The Black Prince traded from London to China and Japan, and later from London to Australia. She made many fast voyages in the days when it was of the utmost importance to get the first cargoes of the China tea crop to market in quick time. Another sailing vessel on which Capt. Conrad served was the British bark Zenobia. He had command of the Zenobia when she ran between London and India.

The steamer Montague of the C. P. R. is the only inbound liner from the Far East expected this week, being due about Friday next from Hongkong and the usual ports of call, including Shimizu, the tea shipping port of South Japan where calls are made by the Oriental liners during the tea season. The Montague has 450 Chinese passengers.

The Canadian-Australian liner Manuka will sail from the outer wharf on Friday for the Antipodes, and will carry about 170 passengers, seventy in the saloon.

The Weir liner Suveric, which has been undergoing repairs at Hongkong is about ready to sail, and is expected to leave the Far Eastern British port

by Saturday next. The Suveric is to call at Keelung in Formosa to load new crop tea and is expected to make a fast run.

**TEES RETURNS FROM THE WEST COAST**

Brought Seventy Passengers Amongst Them Captain Heater from the Whaling Station.

The steamer Tees arrived from the West Coast yesterday with seventy passengers. Amongst them was Capt. William Heater of the whaler Orion, down to take north the new steam whaler Grant. The stormy weather of the present month has interfered with the hunting and but 11 have been killed during June from the Kyuquot station.

The sealing schooner Jessie was at Kyuquot when the Tees left. She had shipped 13 canoes with Indian hunters and will shortly leave in quest of the northbound seal.

**WILL TAKE COLONISTS FOR FAR PERU**

Seattle Man Is Fitting Up Vessel at Sound Port to Take Settlers to Southern Republic.

Captain H. J. Thomson, of Seattle, who is fitting up a boat to take a party of colonists to Peru, expects to leave for that coast in about two weeks. Some thirty people will be carried, and so far fifteen have made positive arrangements, including three married ladies. Miners, blacksmiths, carpenters and other mechanics will be included in the party.

According to Captain Thomson's account, he had obtained a grant from the Peruvian government for settlement purposes, of a rich section of country on the southern coast of Peru, about 500 miles from Callao, and he is taking this party there at a cost of \$1,000 to each, guaranteeing to them provisions, tools, and all necessary supplies for one year.

**Loads at Hastings**

The schooner Lottie Bennett, which arrived Sunday at Port Townsend for orders, is expected to go to the Hastings Mill to load a cargo of lumber for Piji for Hind, Ralph & Co.

**Inverness at Calcutta**

The British steamer Inverness arrived at Calcutta from the Columbia River, via Victoria, prior to June 8th, with a cargo of 2,900,000 feet of lumber, valued at \$34,776. She left Astoria on April 17th last.

**Omega Is Spoken**

LONDON, June 13.—The German ship Omega, from Shields for San Diego, was spoken (no date) in latitude 43S., longitude 59W., with loss of top-gallant yard and some sails.

**Picked Up Sealers.**

The Japanese Government has sent a letter of thanks to Capt. Poulsen of the steamer Fairhaven for picking up a boat's crew of four sealers from the Japanese schooner Boshu Maru off San Francisco on March 9th, after they had been lost from the schooner.

**Georgia Going Home**

The British steamer Georgia, now at Vancouver discharging cargo from Mexico, has made her last voyage in the service of the Canadian-Mexican steamship line, and is soon to be sent home to London. The Canadian-Mexican Company has been absorbed by the Canadian-Mexican Pacific Steamship Company, recently organized. E. H. Heaps, of Vancouver, is president of the new company, and Capt. Worsnop general manager. The company will operate the Canadian-Mexican liner Lonsdale in the service and for the second steamer has chartered the British steamer Henley, which recently carried coal from New Zealand, Australia, to Honolulu. The Henley is now on her way to Vancouver and will enter the service on arrival. Two steamers are soon to be brought out from Europe and on their arrival the Henley will be released and the Lonsdale operated in the service as an intermediate steamer.

**HOMER GOING TO SEAL ISLANDS**

Will Take Special Agent of United States Government and Supplies to Pribiloff Rookeries.

Bound to the Pribiloff Island seal rookeries the steamer Homer left San Francisco yesterday under charter to the United States Government. She took W. I. Lemby, special agent of the United States Government on the islands, and supplies for the government employees and for improving the breeds. A limited number of bachelor seals will be killed by the government on the rookeries this season and each season hereafter.

Regarding the action of the Washington government concerning the seal rookeries the Fur Trade Review of New York says:

"Our correspondent is informed by Deputy Commissioner of Fisheries, Dr. Hugh M. Smith, that the killing privilege will not be leased at present, but that the work on the islands will be confined to the feeding, clothing, housing and educating of the natives.

"It is to be hoped that this will continue not for this season alone, but for many years to come. We can afford to do without Alaska seal skins for a generation, if necessary, or to pay extremely high prices for such skins as the government may find it necessary to take for the benefit of the natives and of the herd; but we cannot afford to have any renewal of conditions that would lead to the extinction of the herd by pelagic sealing that has its excuse in our former policies of administration.

"Nevertheless, the matter is left in a state of uncertainty by the present law. Nothing permanent has, as yet, been accomplished. The whole matter is in the hands of a department, and, with the sound of the Ballinger-Plochet controversy still reverberating through the halls of the Capitol, we cannot feel that safety and securi-

ty in government by department regulation that we might feel in government by law. We trust that the State Department will move with decent celerity and arrange this matter on a permanent basis as part of a treaty with Japan ere the pelagic sealers of that nation remove the whole subject of this discussion from the face of the earth."

**LEGAL INTELLIGENCE**

(Continued from Page 8.)

—The trial of this action was fixed by Gregory, J., for the 27th instant. Before Lampman, Co. J.

Lawrence v. Landsberg. This is a claim to enforce a mechanic's lien. The defendant built a house which she supposed was completed in September last; her architect accepted it on 15th September, and forty days afterwards issued his final certificate. The final payment was made on 8th of November. The plaintiff, who is a plumber, went to the house and changed a register on 16th January, as the original one was not according to specifications. A month or so before the contractor had left Victoria and plaintiff knew it. Plaintiff now claims a lien on the ground that the register put in in January was a part of his work, and was the completion of his sub-contract. The architect and defendant were not aware that anything further was to be done and so far as appears from the evidence the defendant never knew till served with the summons that the register had been put in.

Lampman, Co. J.: I repeat what I said in my judgment in Fox v. Troup and MacLure on 17th November, 1905 — remarks which I think are applicable to this case:

In my opinion, where a plaintiff claims to revive a lien by means of material supplied and work done after the completion of a building, and after the architect has given the final certificate, it is incumbent on him to prove clearly that the material was supplied and the work done in pursuance of and as a part of his original agreement. In this the plaintiff fails, and his claim for a lien must be dismissed."

It was sought to make defendant personally liable because her husband had requested plaintiff to do the work, but a husband is not necessarily an agent for his wife, and the facts shown are not sufficient to justify me in holding that he was her agent.

I express no opinion as to whether or not the plaintiff's cause of action is sufficiently stated in the plaint to warrant a judgment for a lien, even if the facts showed a good case. The action is dismissed with costs. Kito for plaintiff; Bradshaw for defendant.

An application will be made in chambers today for permission to amend statement of claim by the plaintiff's in an action for damages arising out of an alleged conspiracy concerning an option upon lands in the E. & N. Railway belt.

The plaintiffs are Henry Croft, Gavin E. Burns, E. Quennell, Thomas D. Jones, Patrick Dolan, George MacGregor, Louisa Hill, John Hill, Charles Bennie and Joseph E. Dorr. The defendants are C. S. Whiting, B. J. Perry, William Haslam, Alexander Stewart, Thomas Cassidy, Hon. James Dunsmuir, Samuel Jones, Mary Jane Ralnes and Catherine Haslam.

**Why Have an Overheated Kitchen in Summer?**

When the sultry days come and the coal range makes the kitchen almost unbearable and cooking a dreaded task, put out the range fire and try the newest method of cooking in hot weather—use a

**New Perfection Oil Cook-stove**

What a contrast! The kitchen no longer is stifling hot, the work is now done with comfort, and the housewife is not worn out with the heat.

She saves her strength, keeps her health and is better able to enjoy the summer.

The New Perfection does everything that any other stove can do—all the family cooking, baking, washing and ironing. No smoke, no dust, no odor. Heat is applied directly and not wasted. A turn, and the flame is out.

The New Perfection stove has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for the coffee pot or saucepans, and nicked towel racks.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove very attractive and invites cleanliness. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

**The Imperial Oil Company, Limited.**

The plaintiffs claim that James Dunsmuir, B. J. Perry and C. S. Whiting conspired to induce the defendants Stewart, Cassidy and Haslam to break a first option given plaintiffs, and ask that a second option be set aside or registration postponed until after the first option is registered. As an alternative they ask for \$500,000 damages. This amount the plaintiffs will ask today to have increased to \$4,600,000.

**ST. PETERSBURG SCANDAL**

Peculations of Director of Museum Results in Loss of Artistic Gems.

ST. PETERSBURG, June 13.—A scandal brought to light at the celebrated Hermitage museum in the Winter Palace has caused consternation in artistic circles. It is declared that a number of the most famous pictures in the museum have disappeared, their places being filled with copies.

Among the pictures thus replaced are two Rembrandts, a Murillo, and several works of the old French and

## POWDER WORKS BUILDING BURNS

Efforts of Bucket Brigade Are Fruitless to Quell Fire at Telegraph Bay Boarding House

Fire, believed to have been caused by a defective flue, which broke out shortly after 2 p. m., yesterday, completely gutted a two-story boarding house at the works of the Giant Powder company, Telegraph Bay. The value of the building is estimated at \$3,000. The furniture and the major portion of the personal effects in the house were saved.

The fire in the building, which luckily was situated a considerable distance away from the powder magazine, spread rapidly. The men engaged at the works, both Chinese and whites, lent every possible assistance to stifle the outbreak. A bucket brigade in which 35 men took part was formed, but despite strenuous efforts, during which a large quantity of water was poured on the flames, the building was razed to the ground. The outbreak started in the upper story, near the roof, and completed its devastating work in less than an hour.

Eight men, employees of the Giant Powder company, roomed in the building, which was the property of the manufacturing concern. While the flames were in progress three men and many willing assistants were engaged in saving the furniture, which, with the exception of a number of articles of trifling value, was finally rescued. The building will be replaced as soon as possible.

Blacks will celebrate Dominion Day. Measles are epidemic at Enderby. Kamloops is experimenting with Tarvia as a cure for the dust disease. Three recent applications for wholesale liquor licenses in Revelstoke have been unceremoniously turned down. Nanaimo's two Masonic lodges have decided to erect a \$30,000 Masonic Temple. Chilliwack will shortly have one of the finest recreation parks in British Columbia. The Paterson-Echert Lumber Co. has been fined at Chilliwack for infraction of the Wide Tires act. A big potlatch—one of the biggest of recent years—is in progress at Cowichan. Duncans' exhibition dates are June 17 and 18; a dog and cat show will be featured. Louis Kirkpatrick, a pioneer of the interior of this province is dead at Vernon. Hundreds of prospectors have scattered through the Portland Canal mineral zone, a large proportion of them working in the interest of D. D. Mann. The trial of certain employees of the Emerson Lumber Co. for cutting timber on government lands, has begun at Vancouver. A new townsite has been placed on the map. Located at the confluence of Bear and Butler creeks in the Portland Canal district. A bylaw for the purchase of a site and the erection of a city hall will shortly be submitted to the property owners of Chilliwack. Kamloops' license commissioners have agreed that the time has come for raising license fees and demanding a higher standard of hotel accommodation. H. E. Magee, just returned from prospecting the Marmot river, reports the discovery of a mammoth ledge on which eleven claims have been staked. A scheme is afoot to divert the course of the Chilliwack river, at Chilliwack, to the other side of the mountain, as this would greatly facilitate the drainage of the city and surrounding districts. Rev. A. W. McLeod, for five years pastor of the Nanaimo Baptist church has resigned, his resignation to take effect on the 13th September. Mr. McLeod now becomes physical director of Okanagan college. The Dominion Express company has notified Cumberland folk that as the Cumberland and Union Bay railway has recently been acquired by the Canadian Northern the C.N.R. will hereafter look after an express service. Over three hundred Indians last week attended the funeral of "Doctor" Tom, hereditary medicine man of the Cowichan tribe. The deceased was a worthy citizen, of upwards of 400 and nine strong men were required as pallbearers. New Westminster's just adopted building bylaw is so long that it is estimated, at least four hours would be required to read it. The reading in council has accordingly been dispensed with, each alderman making affidavits that he has perused the document. Albert Tollenmayer is now editor of the Port George Tribune, which with the advertising it is at present carrying, is perhaps proportionately the best money-paying proposition in the world's journalism. The Tribune, since its acquisition by the Natural Resources Securities Co., gives an independent support to Conservatism. The Grand Lodge, I.O.O.F. of British Columbia has elected the following officers for the ensuing term: Grand Master, S. L. Webber, New Westminster; Deputy Grand W. H. Cullin, Victoria; Grand Warden, W. A. Johnson, Vancouver; Grand Secretary, Fred Davey, M.P.P. (re-elected to his twenty-seventh term); Grand Treasurer, C. D. Chapman, Kamloops; and Grand Representative, Hugh Fulton, Ladysmith.

## BUYS BROTHER'S ENTIRE HOLDINGS

Mr. M. Young Purchases Balance of New England Hotel and Bakery—Local Realty Active

The entire holdings of his brother, Mr. Louis Young, including his undivided half interest in the New England hotel, have been purchased by Mr. M. Young. The purchase price was in the neighborhood of \$100,000. The new England Restaurant will be carried on by Mr. M. Young, instead of as formerly by Young Bros.

Included in the purchase are Mr. Louis Young's undivided half interest in 211 acres of land in the Quamichan district, two and a half acres of land at the outlet of Shawnigan Lake, ten acres in Gordon Head, one acre on the Saanich Road, two lots on Oak Bay avenue, and ten acres in Port Angeles, together with the new England Hotel, bakery and restaurant, good will, etc.

Mr. Louis Young has not been in good health for the past few weeks, and though better, is withdrawing from active business. The demand for local residential property, principally among outsiders, continues of a brisk character and daily a number of lots are changing hands. The amount of building under way is greater than at any previous time in the history of Victoria. During the past week renewed interest in business property has been evidenced, a number of people from the prairie provinces having arrived here to invest and in some instances to settle down.

A persistent report is current in realty circles that the Canadian Northern workshops on the island will be located on the site now occupied by the Work Point garrison, and it is said that negotiations to effect an exchange of the land are now being carried on.

During the past few weeks a large amount of Saanich property has been bought up for investment purposes, the buyers believing that it is now only a very short time before the B. C. Electric Railway Company will build from Victoria to the north end of the peninsula and that consequently the value of land in that territory will come largely enhanced.

Messrs. Macpherson and Fullerton during the past few days have sold a

lot on Macpherson Avenue to Mr. A. J. Mackenzie of Sidney for \$3,700; a lot on the corner of Macpherson Ave. and Craigflower Road to parties from Cumberland for \$1,200; a lot on the Fairfield Road to Mr. J. Standen for \$600; a lot in the Baylis subdivision to Mr. J. Gregg for \$550; two lots at the corner of St. Charles and Ross streets to Mr. H. B. Hall for \$1,100; a lot on Macpherson Avenue to Mr. J. A. Daniels for \$800; and a lot on Macpherson Avenue to Mr. J. W. Wiseman for \$500.

Messrs. Allen and Son have sold two lots in Rockland Park subdivision; a lot on Prior street; and a house and lot in the Oak Bay district.

Messrs. Currie and Power report a renewed interest in Douglas street property, an important deal in that area pending. This firm disposed of a lot in the Empress subdivision.

## Total Purchase Price \$1,260

To Gentlemen, Sportsmen and others:

FOR SALE

## Marron Lake Ranch Estate

In the Beautiful Okanagan

This estate consists of 480 acres partly laid out in pasture, partly under cultivation for wheat, oats, etc., and includes Marron Lake (6 acres). The land in and around consists of the choicest bottom and bench lands, the soil varying little, and is very productive for all kinds of fruit, produce, etc. From a sportsman's point of view it is the only plentiful deer valley around. The residence contains six rooms and overlooks the lake. There is also a two-roomed cottage on the bench land, and barns for horses, cattle, etc. The whole, including cattle, sheep, pigs, fowls, farm machinery, tools, etc., can be had on valuation. Another 160 acres can be had, if required, the whole being splendidly adapted for fruit acreage and can be sub-divided accordingly.

PENTICTON

For immediate disposal, ten most valuable lots in Pentiction in centre of town, size 33½x120 feet. One lot contains small cottage overlooking Okanagan Lake. Cash price, \$4,800. Apply in first instance to

GEORGE M. WATT

## PRINCE RUPERT GOES NORTH

Grand Trunk Pacific Liner Left  
Company's Wharf Yester-  
day Morning on Her First  
Trip to Prince Rupert

### TOOK LARGE NUMBER OF PASSENGERS

Hon. Thos. Taylor Among  
Those on New Steamer—  
—Made Special Run to Port  
Townsend

With a large number of passengers  
and a good cargo, the new steamer  
Prince Rupert, of the G.T.P. line, Capt.  
Barney Johnson, left the company's  
wharf yesterday morning at 10 o'clock,  
inaugurating her service to Prince  
Rupert and Stewart on a weekly sched-  
ule. The Prince Rupert left Seattle  
at midnight, and brought a number of  
local passengers from the Sound port.  
She also took a number of passengers  
booked to Vancouver from here. The  
passengers for the north were about  
seventy in number, including many  
from Seattle.

From here, Hon. Thomas Taylor,  
minister of public works, was taken  
north, bound to Prince Rupert and  
Stewart, to look over works being car-  
ried out by the government in these  
cities. He will go from Prince Rupert  
to the Bulkley Valley, personally to  
examine the trails, bridges, etc., being  
made by the province in that district,  
and before returning, will go to the  
Queen Charlotte Islands.

Hon. Dr. Young, provincial secretary,  
also went north on the new liner.  
Other passengers for Stewart included  
John Nelson and wife, Ald. Sargison  
and wife and daughter, J. B. Lovell  
and wife, J. Anderson, C. E. Stanley  
and wife, J. McNeill, J. G. Graham, L.  
Rattray, S. Martin and V. Schwabe.  
For Prince Rupert the travellers in-  
cluded W. H. Dempster, David Power,  
Rev. Collinson, Thomas Gilligan, Mr.  
Wright and wife, Hedley Rogers and  
Miss M. J. Cusack. A large number of  
passengers embarked at Vancouver last  
night. The steamer is due back here  
next Saturday.

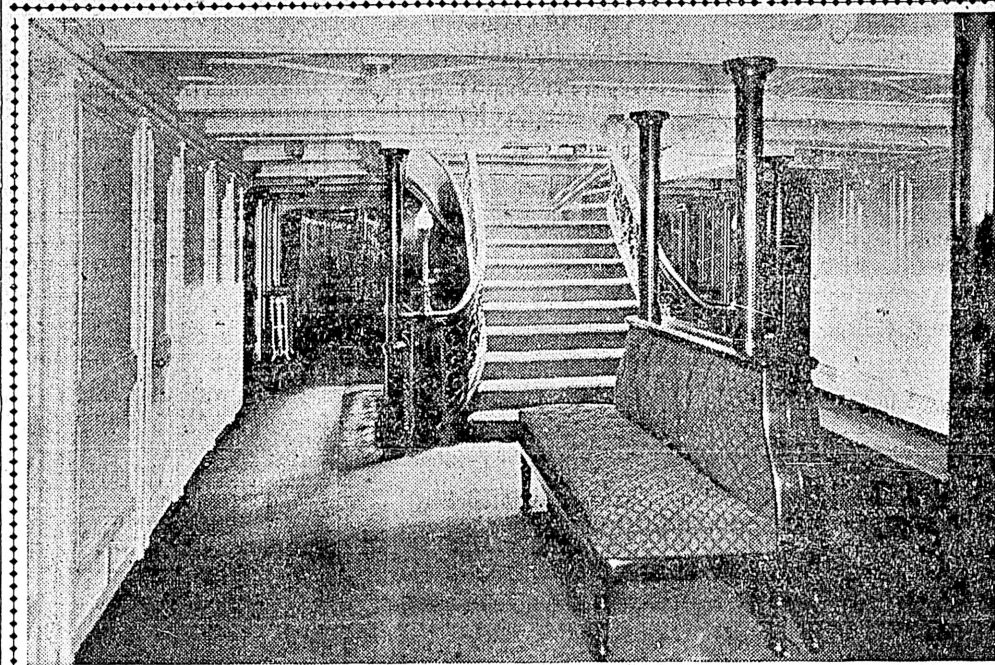

**Some Red Tape**  
The extent to which some officials  
will carry the red tape of officialdom  
was illustrated concerning the visit of  
the new liner of the Grand Trunk Pacific  
line, the Prince Rupert, to the Sound.  
The Prince Rupert left here  
on Friday night for Seattle, and was  
placed on exhibition at the Sound port,  
several thousand visitors going on  
board. After the exhibition at Seattle,  
word was received from the quarantine  
officials at Port Townsend, that as the  
new steamer had not called there on  
her way to Seattle for quarantine in-  
spection, she would have to return.  
Accordingly the Prince Rupert left  
Seattle at 5 a. m. on Sunday and pro-  
ceeded to Port Townsend, where the  
officials went on board, looked the  
steamer over, had a cigar, and the new  
steamer went back to Seattle, arriving  
on Sunday afternoon. She left the  
Sound port at midnight for Victoria,  
inaugurating her new service to Prince  
Rupert and Stewart.

**Takes Charmer's Run**  
Steamer Princess May, which re-  
ached port last night from Skagway, will  
take the run of the steamer Charmer  
to Vancouver tonight.

**Goes to Stewart.**  
The steamer J. L. Card, chartered  
by W. J. Balcom & Co., leaves today  
for Stewart carrying a full cargo of  
building material from Moore &  
Whitington's and the Woodworkers  
Ltd., to build a residence for Stewart  
Bros. on Seventh street at Stewart,  
B. C.

**Queen City Back**  
The Queen City, Capt. Robertson,  
returned yesterday morning from  
Rivers Inlet and east coast ports of  
Vancouver Island with a fair com-  
plement of passengers and light cargo.  
Mike King, who was left at Tat-  
chu Point on the west coast recently  
by the steamer Toes, was a passenger  
on the Queen City, he having made  
his way across Vancouver Island to  
Campbell River.

## Main Stairway on the New Steamer Prince Rupert Which Sailed Yesterday

## MIKADO'S COUSIN COMING HERE

Prince Hiroyasu Fushimi Will  
Arrive Here on Saturday—  
Will Sail With Consort and  
Suite on Sado Maru

The cousin of the Mikado, Prince  
Hiroyasu Fushimi-no-Miya, eldest son  
of Prince Fushimi, the Emperor's  
brother who visited Victoria a few  
years ago, and his consort, the Prin-  
cess Fushimi, and suite, are expected  
in Victoria on Saturday, and will  
leave for Japan by the Nippon Yusen  
Kaisha liner Sado Maru sailing that  
day from the outer wharf. Prince  
and Princess Fushimi are returning  
from England after visiting the An-  
gle-Japanese exhibition, and were to  
have sailed from San Francisco next  
week. Owing to urgent despatches  
from Tokyo, however, they left Bos-  
ton yesterday en route to Seattle, can-  
celling trips anticipated to Niagara  
Falls and Chicago. They will board  
the steamer Sado Maru at Seattle  
on Saturday morning and will arrive  
here about two o'clock, sailing two  
hours later for Yokohama. It is ex-  
pected that advantage of the stay here  
will be taken to motor through the  
city.

Prince Hiroyasu Fushimi-no-Miya  
is a commander of the Japanese navy  
and served on board Admiral Togo's  
flagship, the Mikasa, during the war  
with Russia. He was wounded by a  
splinter from a shell from one of the  
Russian guns during the battle of  
August 10th, 1904, off Port Arthur. He  
was born on October 16th, 1876.

## LAUNCH PRINCESS ADELAIDE SOON

New C.P.R. Liner for Victoria-  
Vancouver Service Will Be  
Placed in Water at Fairfield  
Company's Yards Soon

The Princess Adelaide, the name  
selected for the new C. P. R. steamer  
which is to ply early next winter be-  
tween Victoria and Vancouver in the  
night service, is expected to be launched  
early next month from the slip-  
way on which she is being built at  
the yards of the Fairfield Shipbuilding  
& Engineering Company of Gov-  
an, Scotland, where the same com-  
pany's line liner, Princess Charlotte,  
was constructed. Good progress is  
being made on this vessel, and on the  
steamer being built at the yards of  
Bow MacLachlan & Co. at Paisley for  
the Victoria-Comox route.

The naming of the new steamers  
has offered a problem to the C. P. R.  
officials. It was desired to call one  
of the two new steamers the Princess  
Louise, and in order to do this it was  
intended to register the vessel in the  
United Kingdom, but it was found  
that the British Board of Trade and  
other bodies opposed this name owing  
to being already in use. The choice  
of Princess Patricia, after the  
daughter of the Duke of Connaught,  
was also suggested for the same rea-  
son, and it became a problem to find  
a Princess something-or-other that  
was not in use. The name of Princess  
Adelaide has now received sanc-  
tion, and when the larger of the two  
steamers under construction slides  
into the water in July, when the bottle  
of champagne breaks over her bow  
plates her sponsor will say "I name  
thee, Princess Adelaide."

The steamer for the Victoria-Com-  
ox route is expected to be launched  
in August. The Princess Adelaide  
will probably be completed by that  
time and will start for Victoria about  
the end of August, and in all proba-  
bility be ready to enter service on  
the Victoria-Vancouver route, replac-  
ing the Charmer on the night run  
early in October. It is anticipated  
that the other vessel will arrive in  
time to enter service about a month  
later.

### NEW MISSION STEAMER TO BE LAUNCHED

Columbia Being Built for Coast Mis-  
sion Work at New Westminster  
Is Nearing Completion.

The new missionary steamer Col-  
umbia will be launched at New West-  
minster about the end of this month.  
The new Columbia is 100 feet long  
over all, and 90 feet 6 inches on the  
water line. She has a moulded beam  
of 17 feet and a depth of 9 feet 8 in-  
ches and a draft of a little over  
6 feet. She is a roomy craft with hos-  
pital quarters and a big cabin where  
services can be held, and is a much  
needed improvement on the first Col-  
umbia, which was recently sold to Mr.  
Singleton Wise, of Vancouver.

**Angot for Coal**  
The Norwegian steamer Angot, 2319  
tons, has been chartered to carry a  
cargo of coal from Comox to Guaymas  
at the rate of 28. 9d. per ton, dead-  
weight, by Robert Dollar & Co. She  
will be redelivered at Eureka.

**Dringing Excursion.**  
The steamer Chippewa of the Inter-  
national Steamship Company is ex-  
pected at noon tomorrow with an ex-  
cursion from Everett. The excu-  
sionists will remain in Victoria until  
5 p. m.

## The Oriental Limited

"Built for Comfort"

A modern, high class train through to Chicago, affording  
unusually good service. In addition to Day Coaches,  
Standard Sleeping Car and Dining Cars this train carries a

**Compartment-Observation Car**  
containing four private state rooms and large observation  
parlor, furnished with easy chairs and the latest magazines.  
Meals in Dining Car on popular "Great Northern" pay-only-  
for-what-you-order plan.  
Electric lighted, vacuum cleaned, news bulletins and telephones.

**THROUGH CHICAGO TRAIN**  
Two other electric lighted daily trains. The Southeast Express  
to Kansas City and St. Louis. The Fast Mail to St. Paul,  
Minneapolis, Duluth and Superior.  
E. B. STEPHEN, General Agent, 1205 Government St.

## CHARMER WAS IN DISTRESS

Princess Charlotte Picked Up  
the Steamer Disabled Off  
Mayne Island on Sunday  
Morning

The steamer Princess Charlotte en-  
route from Seattle to Vancouver on  
Sunday morning at 5 o'clock found  
the steamer Charmer bound from  
Victoria to Vancouver broken down,  
drifting toward the land at the south-  
ern end of Mayne Island, a valve of  
her air pump having broken down,  
and practically crippled the vessel.  
A kedge anchor had been put out,  
when it was found that the vacuum  
had been broken with the result that  
the condensers could not be used and  
the Charmer was setting in toward  
the land, being scarcely a stone's  
throw away when the Princess Char-  
lotte sighted her. Capt. Griffin took  
his vessel to the Charmer, but while  
manoeuvring to get a line on the  
Charmer the hawser caught in the  
propeller of the larger boat and some  
delay occurred. Eventually a line  
was made fast, and the Charmer was  
towed to Village Bay, Mayne Island,  
where her engineers effected repairs,  
and the steamer proceeded to Vancou-  
ver. The Princess Charlotte was de-  
layed a few hours, arriving here at  
5:30 p. m. on Sunday, and sailing  
again at 7 p. m. two hours late, for  
Seattle.

### STOCK MARKET SHOWS STRENGTH

Prices Are Kept Up By Free  
Covering of Shorts—Business  
Mostly in Hands of Professionals

(Furnished by F. W. Stevenson & Co.)

NEW YORK, June 13.—Except for a slight recession during the early trading the stock market was strong throughout today's session. Trading in the last hour, however, became purely professional and transactions were relatively small. The borrowing demand for stocks after the close Saturday revealed a large extension of the short interest and in the absence of unfavorable news over Sunday and the lack of disquieting rumors from Washington, shorts covered freely, resulting in substantial advances in a great many instances. There was some talk of a large sale of copper metal abroad being consummated, but the same lacked confirmation. However, it served the purpose of driving shorts to cover in Amalgamated and Anaconda.

### Foreman Killed by Striker

LACROSSE, WIS., June 13.—John  
H. Studier, who came here from Am-  
sterdam, N. Y., as foreman of the La-  
crosse Pearl Button Company's plant  
was shot and killed as a result of a  
strike late Saturday afternoon and  
scores of citizens are aiding the po-  
lice in a search of the swamps near  
the Mississippi river for the murderer.  
Studier was shot by a striker it is  
believed. The dead man was 26 years  
old.

The Cost of Producing Coal

The first step in the production of coal is to prove and win the coal seam, and to purchase and erect the plant and machinery required for the equipment of a colliery. To do this needs a large amount of capital, running sometimes into hundreds of thousands of pounds. The risks are great, not only from the uncertainty of natural conditions such as water, gas and geological dislocations, but also from labor disputes and the vagaries of legislation. What the return may be on the capital invested, and when it will be realized is never a certainty and sometimes a matter of great speculation. It is very dangerous to embark on coalmining enterprises without an ample margin of capital, sufficient to meet unforeseen expenses, and to tide over the lean years when no profit can be made. A large amount of capital has been lost in coalmining. It is only the chance of making large profits that attracts investors, and if large profits are not forthcoming, there will be increasing difficulty in getting the capital needed for colliery undertakings.

Capital Expenditure

An article on the cost of producing coal would be incomplete without some estimate of the cost of the capital required. The question is complicated by the varying practice at the different collieries as to what expenditure would be piled to capital account, and what should be paid out of ordinary revenue. But, estimating it broadly, as the amount required to sink a couple of shafts to an average depth and to equip a colliery for an output of 1000 tons a day—or say 300,000 tons a year—probably £250,000 or ten shillings a ton yearly output may be taken as an average capital expenditure. The larger the output, the less will be the proportionate expenditure. In an article in the "Colliery Manager's Pocket Book" for 1902, Mr. J. H. Merivale gives the following estimate, based to some extent on actual figures:

Collieries up to 50,000 tons per annum, per ton, 12s; collieries up to 150,000 tons per annum, per ton, 10s; collieries up to 400,000 tons per annum, per ton, 8s; collieries up to 750,000 tons per annum, per ton, 7s; and he takes the average to be nine shillings a ton. Allowing 3 per cent for the redemption of the capital—or a period of about thirty-three years for redeeming it—3 per cent on 9s is 2 1/2d, 3 per cent on 10s is 3d. In the cost of producing coal therefore, the charge per ton for the repayment of the capital invested, without allowing any interest for the use of it, may be put on an average of 3 1/2d a ton of gross output.

The Cost of Labor

In the cost of working coal the largest item, and one that has been steadily increasing for a good many years, is the cost of labor. The cost of labor should be distinguished from the rate of wages. The cost of labor may be high though the rate of wages be low, and a high rate of wages is not incompatible with a high cost of labor. This is shown broadly by the fact that in such countries as Belgium and France, where the rate of wages is lower, the cost of labor is higher than in the United Kingdom and the United States where the rate of wages is higher. This is due to the great natural difficulties, the thin, hard, steep and contorted coal seams in the former countries. The cost of labor depends not only on the amount spent in wages, but on the production of coal in tons in return for the wages. And the production of coal per man depends on a number of things, including the nature of the seam, the nature of the mine, the energy and skill and strength of the man, and on the efficiency of the management. Again the rate of wages actually earned. The wages earned depend on the number of shifts worked as well as on the rate of

NOTICE

I, Alexander Simpson hereby give notice that one month from the date hereof I will apply to Superintendent of Provincial Police at Victoria, B. C., for a renewal of my license for selling intoxicating liquors at the premises known as the Half Way House hotel, situated at Esquimalt, in the district of Esquimalt, to commence on the 1st day of July, 1910, and for a transfer of the license to Charles Wesley Davey.

NEWCOMB'S "ASTRONOMY FOR ALL," page 214, gives very interesting details of the comet's passage past the sun in 1882.

wages. A high rate of wages may cause irregular and lessened employment, and a man's actual earnings may be less than they would have been with a lower rate of wages.

The Rate of Wages

Some authorities assert that the rate of wages is not a factor at all in the cost of mining. Mr. James Ralph Finlay (lecturer at Harvard University on the Economics of Mining) in his book recently published, "The Cost of Mining," states that the price of labor is determined by the natural factors; that it is an effect, not a cause, in the economy of mining; that in two neighboring districts with the same natural advantages, though the rate of wages may be different the cost will be the same; the mine paying lower wages having poorer men. "The difference will be equalized by the supply and demand for labor as automatically as water runs down hill." This may be true where the supply and demand for labor is free and unrestricted, but in this country, for good or for evil, the rate of wages is protected and stimulated by the action of the miners' unions.

LETTERS TO EDITOR

The Comet

Sir—Halley's comet was timed to cross the sun's disk on May 19th. How many days did it take to make its passage across the sun? Astronomers said the comet would not be visible at the time of passage.

A few minutes before 7 o'clock of the evening of May 18, I received a laconic telephone call from an old street-sayer, "Look at the sun." My daughter, Mrs. R. Higgins, hastened out, and immediately called, "Come out, the sun is going round and round." With unprotected eyes I saw the face of the sun, covered apparently with a grey semi-transparent mantle, with dark spots through which the sun, mellowed, could be more or less distinctly seen. Surrounding this mantle was a band of pink coloring, say three or four inches in breadth. This band would now and again appear and disappear, a bright light appearing, and then closing, and a crack, the opening would zig-zag, like small flashes of forked lightning. These often occurred. Surrounding this band and shooting apparently from behind it appeared beautiful and brilliant streamers reaching great lengths here, there and everywhere, and resembling the aurora borealis or merry dancers, and of similar colors, the antics of these giving the appearance of a rotary motion of the sun. We watched these weird, beautiful appearances with creepy feelings, at least a quarter of an hour, the sun disappearing at the time, the appearances varying but little as he went down. It was a very fine evening, the sky blue, as usual in Victoria at this time of the year, and around the sun perfectly clear. At a distance appeared a mass of cumulus, fringed with the ordinary bright light of the sun—no smoke.

The most of the above appeared in the Times of 19th May.—I. S. H.

On first seeing this we called our neighbors out to take a look. They were six adults and four children, all gathered together and then went home to dinner, and to find that my cook, a Chinaman, had been out investigating on his own account! Result, spoiled cookery. I have lived more than fifty years in Victoria and have never seen anything like it.

My son James subsequently told me that he was coming home down Fort street, where a large number of people had congregated, and they told him to look at the sun. He said it looked like a business, and not a comet. He was in their houses and from houses but few could see a sunset. Anyhow but few people look or bother about the sun, he being an everyday affair, not requiring attention, and too dazzling to look at, save through a fog of some kind.

In the Colonist of May 19th a whole column is occupied by telegrams about the comet from various parts of Canada and the United States, from observatories, and from people who watched the sun with naked eyes. In nearly all these telegrams most people, who saw and except one from Father (Francis) Martin, in which he remarks "a large solar disturbance." The sun spots are reported to have been of enormous dimensions, and our astronomer, Mr. Denwood, of the weather bureau, had been watching the sun, and studying the formation of the sunspot or sun spots, for a few days prior to the 18th, apparently a new sunspot (or the old one coming again into sight?)

What relation had this sunspot and the coincident passage of the comet to the weird phenomena about and in front of the sun observed in Victoria on the evening of the 18th, and by reports a mile from the city on three preceding evenings? Sunspots are constantly or frequently coming and going without producing any phenomena to us. Anybody who has seen sunspots (I have been in India study them for years ago, having a conviction that they were the presence of sunspots foretold years of famine or plenty; i. e. in relation to rain or its absence, with what result I know not. Anyhow it seems the higher we become in our atmosphere the colder it becomes. Does the sun have glaciers and to us pass through snow and glaciers and glaciers? or is there nothing of this kind in space. Are we bottled up in a bottle of ice?

Although I have lived in Victoria for more than half a century, I have never seen anything like the phenomena witnessed here in the evening of the 18th May, and I am not aware of any local conditions likely at the time to delude our vision at this time.

J. S. HELMCKEN.

The following letter received by Dr. Helmcken is of great interest:

It might interest you to know that the comet of 1882 was seen by you the night of May 18th, as was also been noticed from the observatorium of Upsala, Sweden.

I have just received the last papers from Stockholm, containing a long article about Halley's comet.

The extraordinary flashing light of the sun, its unusual size and dark spots were observed early in the night between 18th and 19th of May, corresponding exactly with your own time of observation.

The article says further that similar phenomena were observed in 1882 at the observatorium in Capetown. [This was not Halley's, but another comet.]

CITY OF VICTORIA

A complete list of Local Improvement works, authorized by Bylaw, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

Court of Revision

NOTICE IS HEREBY GIVEN that the first sitting of the Annual Court of Revision of the Municipality of the City of Victoria, will be held in the Council Chamber, City Hall, Victoria, B. C., on Thursday, the 21st day of June, 1910, at 10 o'clock a. m. for the purpose of hearing complaints against the assessment as made by the Assessor, and for revising and correcting the assessment roll.

WELLINGTON J. DOWLER, C. M. C.

City Clerk's Office, Victoria, B. C., May 19th, 1910.

NOTICE

Hereafter the Corporation of the City of Victoria will not recognize claims for goods supplied except upon a regular order form signed by W. W. Northcott, purchasing agent, or by W. Galt, storekeeper.

In cases of actual emergency merchants will be protected in supplying goods to an employee of the corporation, by the employee providing the merchant with the regular signed order as soon after the supplying of the goods as the emergency will permit.

A. J. MORLEY, Mayor.

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to construct a permanent sidewalk of concrete on the north side of Simcoe street from Montreal street to St. Lawrence street; And that the said work shall be carried out in accordance with the provisions of the "Local Improvement General By-Law" and amendments thereto, and the City Engineer and City Assessor having reported to the council in accordance with the provisions of section 4 of said bylaw, upon each and every said works of local improvement, giving

## A Mid-Week Clearance of Ladies' Costumes

**60 Traveller's Samples, Values from \$40 to \$60, Your Choice, Wed., at \$29.75**

**Every Lady Needing a High Grade, Well-Tailored Costume Should Be Here Wednesday Morning**

Our Mantle Department comes forward on Wednesday with tremendous values in fine tailored costumes. These are smart and snappy in the extreme. They are a lot which we procured from one of the travellers who was on the last lap of his journey and who wished to dispose of them at any old price. Not only are the materials of an extra good quality, but we venture to say that we have never offered better looking or finer finished garments before at such a tremendous saving. They are indeed really worth while. If these had been bought in the regular way, we would be compelled to offer them at \$40.00 to \$60.00, but owing to purchasing them at our own price, we are therefore able to offer them to you at \$29.75. The materials are the finest made, being Venetians, broadcloths, French cords, diagonal serges—some beautifully trimmed with inlaid collars and cuffs.

**If Ever You Were Offered a Saving in Wash Suits, You Are at This Sale, Wed. Reg. \$7.50 to \$9, for \$4.90**

There is still plenty time for a good wash suit—in fact there are still three good warm months ahead of you. In order to make room for a large shipment which we expect to arrive any day, we have decided to let these go at decisive saving prices. They are in all colors—blues, pinks, mauves, stripe effects in the very newest styles, made of a fine quality cotton repp, usually sold at \$7.50 to \$9.00. Wednesday **\$4.90**

**A Splendid Line of Tapestries Go on Sale Wed. Reg. 65c to \$2.25 for 50c per Yd.**

There is nothing better for curtains or draperies than Tapestries. These are in 50 inch width, in nearly all colors, both scroll, floral and conventional designs. These usually sell for 65c to \$2.25 per yard. Special clearance price Wednesday **50c**

**Nainsook Night Gowns for Ladies, Wed., \$1.00**

You could not wish for better value in Night Gowns than what we are offering here Wednesday. They are in a number of very pretty styles. Here is one style, made with yoke of embroidery, neck and sleeves are finished with embroidery. Another style is made in slipover effect, with neck and sleeves trimmed with lace. Special Wednesday **\$1.00**

**Jardiniere Stands Special for Wednesday at \$1.50**

Jardiniere Stand, made of solid oak, finished Early English and golden. New design in shape. Just the article of furniture to stand palm and flowers on. Special **\$1.50**

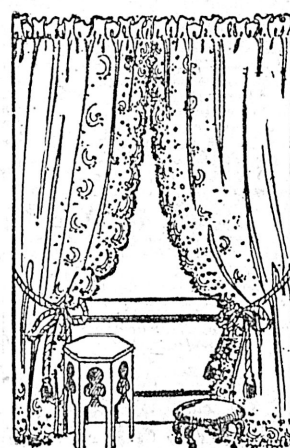

**Books, Reg. 35c to 50c, Special, 25c**

The Cloister and the Hearth, by Frank on the Lower Mississippi, Read.  
The Three Guardsmen, by Dumas.  
Man in the Iron Mask, by Dumas.  
Beulah, by Evans.  
The Prairie, by Cooper.  
Self-raised, by Southworth.  
Do Somethings, by Optic.  
Prince Charlie, by Sir Walter Scott.

Airy Fairy Lilian, by Duchess.  
Rookh, by Thos. Moore.  
Millbank, by Mary J. Holmes.  
Robinson Crusoe, by Defoe.  
Prince Charlie's Daughter, by Charlotte M. Brame.

**Nottingham Lace Curtains, Regular \$1.25 and \$1.50 per Pair, Wedn'sdy, 80c**

A very choice assortment of Nottingham Lace Curtains go on sale Wednesday at very special prices indeed. These include some exceptionally pretty designs, extra strong net, 3 1/2 yards long. They are a line which we always sell at \$1.25 and \$1.50 per pair. Yet to clear them out Wednesday, we have marked them down to **80c** Shown in Broad St. Windows

**Dress Goods, Wed., 50c. Reg. Values up to \$1.00**

Exceptional values in dress goods for Wednesday. These include Navy Serge, Lustres, Panamas, Venetians, Cream Lustres, Black Serges, Satin Cloths, Stripe Poplins. These are all exceptional quality, all the season's very latest effects. These sold usually at \$1.00 per yard, but in order to make this department a busy one Wednesday we are offering them at **50c**

**Pongee, Lousienne and a Geisha Silks, Regular 75c, Wednesday Morning, 35c**

Next to half price, this is well worth while taking advantage of. A splendid variety of Pongee Lousienne, Satin, Fancy and Geisha Silks go on sale Wednesday. These include all the season's very latest and best effects in all colors imaginable. Extra good quality. Regular 75c per yard. Wednesday morning **35c**

**Our Hair Goods Dept. Comes Forward With Excep. Val.**

**Real Hair Curls, Reg. \$1.00 Each, Pompadour Hair Rolls, Reg. 35c and for 25c 50c, for 10c**

We are placing on special clearance sale Wednesday a splendid range of Real Hair Curls. They are in light, medium and dark browns. The regular price was \$1.00. Wednesday **25c**

In some instances these are offered at one-fifth their usual price. They are made of best steel wire and light as a feather. Usual selling price, 35c and 50c. Wednesday's price **10c**

**A Special Bargain in Girls' Boots for Wednesday at \$1.25**

This lot consists of broken sizes in Girls' Boots, in box calf and glazed kid, and includes a large variety of lines. Every one of them is an extra special value. They not only wear well, but also look stylish. All sizes from 8 to 2. Special price Wednesday, per pair **\$1.25**

**Men's Balbriggan Underwear at 50c**
